Prescription drug abuse is a bitter pill for Indiana to swallow.

**THE PROBLEM**

While prescription drugs provide relief to millions of people every year when used properly, the misuse and abuse of these drugs has become one of the gravest issues facing Hoosiers of all ages today.

MORE PEOPLE ABUSE PRESCRIPTION DRUGS THAN COCAINE, HEROIN, HALLUCINOGENS AND INHALANTS COMBINED.

EVERY 25 MINUTES SOMEONE DIES FROM A PRESCRIPTION DRUG OVERDOSE.

IN THE U.S. 1 IN 20 PEOPLE HAVE USED PRESCRIPTION PAINKILLERS FOR NON-MEDICAL REASONS.
DID YOU KNOW:

• Overdoses are often accidental.
• Straight-A students are no less likely to be abusers than dropouts.
• Abuse and misuse is not simply a youth drug issue.
• Prescription opioid abuse can lead to heroin usage.
• Painkillers, stimulants and depressants are among the most frequently misused or abused drugs.
• No age, social class, race, gender or geographic region is without challenges when it comes to prescription drugs.
• Safe storage and disposal can cut down on risks.
• Prescriptions are not the problem. Misuse or abuse of them is.
• This problem impacts all Hoosiers — economically, socially and with regards to our health and welfare.
• Education brings understanding. BitterPill.IN.gov.
