Reports and Submission Deadlines

Reports are due at various times of the year, depending upon the type of report. There are four record-level reports collected, and one aggregated report. All reporting is done at the campus level. Note that references to “fiscal year”, “reporting year” and “academic year” are interchangeable throughout CHEDSS documentation: all terms refer to the sequential fall, spring, and trailing summer semesters in a given reporting year.

Record Level Files

For record level files, every file submission for a given reporting year and campus must contain data for all locations associated with a campus in a single file. A file cannot contain data for more than one campus. Each valid file submission in a given reporting year will overwrite any previous file submissions from that campus for the same reporting year.

Student Profile File: The student profile file collects demographic and other information on students, as well as the student ID, which is a key field in linking to other data files. Once the data collection system has been opened for a given year, the student profile file may be submitted at any time during the submission window, but a student profile record must be on file for each student being submitted in any other files for the reporting year.

Credits File: The credits file collects information on credits attempted and earned in various areas. The credits file is submitted in September-October for the prior academic year (fall, spring, trailing summer). The report must be submitted between approximately last week in September and second week in November (exact dates subject to change).

Degrees Conferred File: The degrees conferred file collects information on degrees and certificates earned by students during the prior academic year (fall, spring, trailing summer). The degrees conferred file is submitted in September -November for the prior year. The report must be submitted between approximately last week in September and second week in November (exact dates subject to change).

Financial Aid File: The financial aid file collects information on student expenses and financial aid, both federal and state. The financial aid file is submitted in September-November for prior academic year (fall, spring, trailing summer). The report must be submitted between approximately last week in September and second week in November (exact dates subject to change).

Aggregated Enrollment Counts

Census Date Enrollment Counts (Fall Enrollment): The census date enrollment counts file (called Fall Enrollment) is an aggregated report that collects information on a campus's census date enrollment counts. The census date enrollment count report is submitted once per year between first and third weeks in September (exact dates subject to change).

Data Submission Process

Data for the Census Date Enrollment Counts (Fall Enrollment), Student Profile, Credits, Degrees Conferred, and Financial Aid files are submitted through a secure upload system, the CHE Data Submission System (CHEDSS), <https://chedss.che.in.gov>. Data must be submitted in comma delimited format. See individual file layouts for specific instructions and definitions for each file and data element.

For information on how to submit Fall Enrollment, Student Profile, Credits, Degrees Conferred, and Financial Aid data, go to the CHE Data Submission System site and select Help. Under the System Documentation heading, the User Guide provides detailed information on the transmission and submission processes, as well as user management. A complete list of all edits (errors and warnings) can be downloaded as well.

Table 3.2: Dual Credit Courses (High Priority)

Dual Credit (High Priority) courses are certain liberal arts courses that have been designated as high priority. The courses are listed in the table below.

CTL Course Title
American Government
American History 1
American History 2
College Biology 1 & 2 w/Lab (sequenced course)*
Human Biology
Introduction to Biology
General Chemistry 1 & 2 w/Lab (sequenced course)*
Elementary General Chemistry w/Lab
Economics, Introduction to
Microeconomics
Macroeconomics
English Composition 1
English Composition 2
Appreciation of Literature
Public Speaking, Fundamentals of
Calculus 1, Brief
Calculus 1
Calculus 2
College Algebra
Finite Math
Trigonometric Functions
Physics 1 & 2, Algebra-Based (sequenced course)*
Physics 1 & 2, Calculus-Based (sequenced course)*
Physical Science, Survey of
Introduction to Psychology
French Level 1, 2, 3, 4
German Level 1, 2, 3, 4
Spanish Level 1, 2, 3, 4
Chinese Level 1, 2, 3, 4
Japanese Level 1, 2, 3, 4

* Sequenced courses must ~~both~~ be satisfactorily completed to count as CTL courses and as Priority Dual Credit Liberal Arts Courses.
