County Commissioners: Denny Burns, President
Address: 401 East Main Street
City: Richmond
Zip Code: 47374

Plan Summary

Mission Statement: The mission of the Partnership for a Drug Free Wayne County is to promote, support and encourage the prevention, education, treatment and law enforcement of substance abuse and substance abuse related issues including alcohol, tobacco and other drugs.

History: Organized in 1987, the local coordinating council in Wayne County has completed 25 years of service in the prevention, education, treatment, intervention, justice and law enforcement of alcohol, tobacco and other drug issues. In 1995, the LCC received Articles of Incorporation under IC 23-17-1-1 et seq. for "any lawful purpose," but has since gone back under the umbrella of Wayne County Government. The Partnership operates as a community coalition with the membership comprised of any interested citizen willing to serve their community in this area. The membership has evolved over the years to include teachers, school counselors, substance abuse program directors, program counselors, clergy, judges, attorneys, law enforcement, not for profit agencies, senior citizens, government officials, doctors and community members.

The Partnership operates with a Board of Directors and employs a part-time Executive Director. The Wayne County Auditor's office is responsible for the fiscal operations of the Partnership. Upon the recommendation of the funding committee, the Wayne County Commissioners allocate funding on an annual basis and the County Council appropriates the funding. The Auditor's office then distributes checks to awarded agencies. The Partnership on rare occasion has awarded funding mid-year for worthwhile programs, following the same protocol.

The Partnership has been instrumental bringing new initiatives to the Wayne County community. Teen Court was started as an alternative for juvenile probation officers for non-violent first time offenders. The Court, now discontinued, operated for several years through the Probation Department. Hope House Addiction and Recovery Services is a treatment program housed on the grounds of the Richmond State Hospital serving indigent clients with substance abuse. The Hope House was modeled after "The Healing Place" program in Louisville, Kentucky. These two initiatives were brought to Wayne County through our Comprehensive Plan.

In 2005 the Partnership served as the lead agency for a Drug Free Communities Grant administered by DOJ. Collaboration of several agencies and school districts worked together to receive this funding. Although we were not funded in subsequent years, it did set our coalition in the direction of bringing additional resources for our partners and community. In 2007 we applied for and were awarded a Strategic Prevention Framework State Incentive Grant. This grant allowed us to hire 2 new full-time staff to lead this initiative and has brought many new community members into the efforts of the Partnership. Additionally, our Partnership applied for and was awarded a Safe and Drug Free Schools Grant- Governor's Portion. With these dollars we were able to bring the evidence-based program "Guiding Good Choices" to Wayne County.

In 2007 the Partnership began a series of educational opportunities we named "Lunch and Learn." At the Lunch and Learns we have covered the areas of abuse, addiction, treatment and law enforcement. The L and L's have been well attended and have exceeded the expectations of the Partnership. In 2008, 2009, 2010, and 6 months of 2011 SPF-SIG continued the development of

our community capacity to address substance abuse prevention by bringing training and sponsoring speakers for the community.

Summary of the Comprehensive Community Plan: The Partnership for a Drug Free Wayne County works each year to accomplish its mission statement through our members and the organizations they represent, the grantees and funded programs, as well as a diverse group of citizens and programs designed to address Alcohol, Tobacco and Other Drug (ATOD) issues. Our membership has provided a stable foundation for over 25 years in the ATOD arena.

Our members represent Education, Law Enforcement, Judiciary, Treatment, Civic organizations, Business, Government, Prevention, Faith Based Intervention, and Medicine. We continue to work towards consistent representation of Youth involvement in our local coordinating council.

For many years now, our plans have been written with a strong emphasis on identified risk and protective factors for Wayne County. We are utilizing the Risk Factor / Protective Factors Approach to Positive Youth Development, a research based strategy approved by the Council for Substance Abuse Prevention (CSAP). Risk and Protective factor-focused prevention is based on a simple premise: To prevent a problem from happening, we need to identify the factors that increase the risk of that problem developing and then find ways to reduce the risk. At the same time, we must identify those factors that buffer individuals from the risk factors present in their environments and then find ways to increase the protection. Risk factors and protective factors exist in our community, family, school and peer/individual. Data collected for the County wide Partnership for Youth and Safe Schools/ Healthy Students Initiative is organized around this model. As a participant in the community coalition, the Partnership has organized this plan around the model.

Several drug and alcohol concerns persist for Wayne County. Lifetime usage of marijuana is notably above the state average for 7th-9th grades as reported on the Indiana Prevention Resource Center survey, 2011. This is also the case for alcohol for 8th-10th graders. This being the case we need to continue focusing on prevention/education initiatives in the schools and youth organizations. A collaborative effort has taken hold in Wayne County to implement "A Comprehensive Prevention Approach" as defined by the Development Research Programs, Inc. in Seattle Washington. According to this model, "the foundation of an effective prevention program is a comprehensive, community-wide approach that addresses risk factors by enhancing protective factors based on established and field-tested research." As defined by this approach, Wayne County has worked to implement strategies identified throughout the plan.

Treatment/Intervention options in Wayne County continue to be a priority, both for adolescents as well as adults. In 2011, we lost a treatment provider whose services were provided through Reid Hospital and Health Care Services. They made the difficult decision to discontinue substance abuse treatment. Collaboration between agencies is paramount when the need exists to offer treatment options to the homeless, the indigent, and to every other socio-economic group represented. Individuals who do not have healthcare cannot afford for-profit treatment centers. Wayne County has programs designed for these individuals. Providing financial support to these agencies is a priority for our community.

Our law enforcement agencies take extraordinary steps to make our communities a safe place to live, work and raise a family. Participation in the Governor's Council on Impaired and Dangerous Driving enforcement, drug investigations and arrests, and diversion programs, are only a few initiatives that our law enforcement agencies participate in. Additionally, many community outreach opportunities have developed with the Sheriff's Department Safe Driver Program and DARE as well as Richmond Police Department and Sheriff's Department demonstrations with their "drug sniffing dogs."

It is our obligation to work with every strategy in this plan to reduce the issues our citizens face with ATOD. This plan is a working document that allows us to distribute funding in a fair and equitable manner that best serves the citizens of Wayne County. For the next 4 years we will address the following problem statements:

1. Adults and youth in Wayne County are using opioids and heroin.
2. Adults in Wayne County are abusing alcohol.
3. Youth in Wayne County are engaging in alcohol use.
4. Adults and youth in Wayne County are using marijuana.
5. Methamphetamine appears to be an emerging drug of abuse in Wayne County.

Local data supports the need to address these problems in our community. The following is a history of criminal court filings:

Substance/Charge	2009	2010	2011
Minor Consuming Alcoholic Beverage	134	121	64
Operating a Motor Vehicle While Intoxicated	602	497	307
Public Intoxication	382	248	219
Marijuana	140	165	107
Opioids/Heroin			98
Methamphetamines		5	37

In a survey conducted by the Indiana Prevention Resource Center, 2011 , the following table represents responses to questions about **Lifetime** Use of Alcohol, Tobacco and Other Drugs by junior high and high school youth in Wayne County:

	7 th Grade		8 th Grade		9 th Grade		10 th Grade		11 th Grade		12 th Grade

1. 14% of adults seeking treatment at Centerstone reported opioids as the substance of addiction.
2. There were 135 heroin/opioid related charges filed in adult court in Wayne County in 2013.
3. 8th through 12th graders were well over the State average for Lifetime Use of Heroin. 7th through 12th graders were well over the State average for Lifetime Use of Prescription Drugs.

4. Wayne County Juvenile Probation received 96 referrals for drug and alcohol offenses in 2013.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

C. Goals:

1. Decrease the number of heroin/opioid related charges filed in adult court in Wayne County.
2. Increase the number of adults seeking treatment for opioid addiction.
3. Decrease the lifetime use as reported on the ATOD Survey.
4. Reduce the number of referrals to Wayne County Juvenile Probation.

End of Year 1 Annual Benchmarks

1. There were 99 heroin/opioid charges filed in 2012. One more than in 2011.
2. There was a decrease in the number of adults seeking treatment for opioids at Centerstone.
3. Lifetime use of heroin as reported on the ATOD increased in grade levels 9th through 11th.
4. The number of drug and alcohol referrals for juveniles to probation increased in 2012.

End of Year 2 Annual Benchmarks

1. There was a 28% **increase** in the heroin/opioid charges filed in 2013.
2. There was a decrease in the number of individuals seeking treatment for opioid abuse at Centerstone.
3. Between 2012 and 2013 grades 7, 8, and 11 went down. Grades 9, 10 and 11 went up. There was a significant increase in the 9th and 12th grades.
4. There was 28% decrease in the drug and alcohol referrals for juveniles to probation in 2013.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

1. Increase the awareness of risk of harm due to heroin and opioid abuse.
2. Support agencies engaged in the prevention of heroin and opioid use through funding or promotion of evidence-based practices.
3. Support agencies engaged in the treatment of heroin and opioid addiction through funding or promotion of evidence-based practices.
4. Support law enforcement efforts to reduce access to heroin and opioid.

End of Year 1 Update:

1. No organization directly addressed Objective #1. However, the PDFWC hosted a Lunch and Learn on the Interstate Interdiction work.
 - 2a. 63 youth completed the SMART Kids program at the Boy’s and Girl’s Clubs of Wayne County. Participants saw a 34.6% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based.
 - 2b. Girl’s Inc. trained 31 girls in resistance skills using the Friendly PEERsuassion curriculum. This curriculum is evidence-based.
 - 2c. Peer Information Center for Teens (PICT) offered Protecting You Protecting Me training to 503 Richmond Community Schools student in 3rd through 5th grades. A portion of the curriculum covers drugs and alcohol. Pre/post testing shows a 30% improvement in knowledge after the series of 6 sessions. This curriculum is evidence-based.
 - 3a. Hope House provided treatment services to 115 men in 2012.
 - 3b. Information from NOAHS ARK was not available at the time this report was prepared.
 - 3c. Information from WIT House was not available at the time this report was prepared.
 - 3d. Centerstone provided recovery services to 48 criminal justice involved individuals through Project RISE. (not PDFWC funded)
 - 3e. Communities in Schools had 951 student contacts in 2012 related to mental health and substance abuse issues.
 - 4a. Wayne County drug canines participated in numerous educational activities across the county. There were more than 1500 individuals reached through these activities.
 - 4b. Wayne County drug canines including Indiana State Police canines participated in felony drug searches of autos and buildings.

End of Year 2 Update:

1. No organization directly addressed Objective #1. However, the PDFWC hosted a Lunch and Learn of drug diversion.
 - 2a. 61 youth completed the SMART Kids program at the Boy’s and Girl’s Clubs of Wayne County. Participants saw a 36% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based.
 - 2b. Girls Inc. data was not available at the time of this report.
 - 2c. Peer Information Center for Teens (PICT) provided 410 3rd-5th graders the Protecting You Protecting Me (PYPM) curriculum. This curriculum is evidence based. One of six sessions directly addresses substance abuse behavior. This curriculum is evidence based.
 - 2d. 29 teens are certified in the PYPM. 7 new teens were certified in PYPM in 2013 along with 90 hours of nationally certified training relating to ATOD issues and other crisis topics.
 - 2e. PICT peer helpers had over 137 peer contacts in relation to substance abuse.
 - 3a. Hope House provided treatment services through the therapeutic community model to 178 men.
 - 3b. WIT House served 62 women in their 12 week workshop “Empower Women Today to Design a Brighter Future.”
 - 3c. Communities in Schools had 174 students receive Level 2 services. These students are identified as having multiple risk factors, including substance abuse, for failure in school.
 - 4a. Wayne County drug canines participated in numerous educational activities across the county. There were more than 4000 individuals reached through these activities.

- 4b. Wayne County drug canines including Indiana State Police canines participated in felony drug searches of autos and buildings. These searches resulted in the seizure of more than 100 pounds of marijuana, and unknown amounts of crack, heroin, cocaine and methamphetamines.
- 4c. 2 drug take back days were held in Wayne County. Wayne County had one of the largest collections in the State of Indiana.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

A. Problem Statement #2: Adults in Wayne County are abusing alcohol.

B. Supportive Data:

2011 ALL ADULTS - TOTAL CLIENTS 855		
ADDICTION TREATMENT	# OF CLIENTS	% OF TOTAL
ALCOHOL ABUSE	329	38%

1. There were 28 alcohol related accidents in the City of Richmond in 2013.
2. There were 508 “Operating While Intoxicated” charges filed in Wayne County in 2013.
3. There were 113 “Public Intoxication” charges filed in Wayne County in 2013.
4. 35% of adults seeking treatment for substance abuse at Centerstone in 2013 report alcohol as the reason for seeking treatment.
5. There were no fatal alcohol related car crashes in 2013.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

C. Goals:

1. Reduce the number of alcohol related crashes in Wayne County by 10%.
2. Decrease the number of OWI charges filed in Wayne County by 10%.
3. Decrease the number of Public Intoxication charges filed in Wayne County by 10%.
4. Increase the numbers of individuals entering into treatment for alcohol abuse/addiction.

End of Year 1 Annual Benchmarks:

1. Alcohol related crashes decreased by 50%.
2. OWI arrests increased in 2012. This may be the result of increased participation in extra patrols by the Richmond Police Department.
3. Public Intoxication arrests increased marginally in 2012.
4. The number of adults seeking treatment from Centerstone for alcohol decreased in 2012.

End of Year 2 Annual Benchmarks:

1. Alcohol related crashes increased by 32% in 2013.

2. OWI arrests increased in 2013. This may be the result of increased participation in extra patrols by the Richmond Police Department.
3. Public Intoxication arrests decreased significantly in 2013.
4. The number of adults seeking treatment from Centerstone for alcohol decreased in 2013.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

1. Support agencies engaged in the evidence based treatment of alcohol abuse.
2. Support enforcement activities around Wayne County (overtime for checkpoints and excise police, etc.).
3. Support evidence based awareness activities in Wayne County.
4. Provide opportunities for support for those identified as adults (21 and older) that have misused alcohol; i.e.- providing funding, treatment, or other support for individuals and/or families.

End of Year 1 Update:

- 1a. Centerstone provided recovery services to 48 (measured on fiscal year) criminal justice involved individuals through Project RISE. (not PDFWC funded)
- 1b. Hope House provided treatment services to 115 men in 2012.
- 1c. Data regarding women served at WIT House was not received in time to include in this report.
- 1d. Data regarding individuals served by NOAHS ARK was not received in time to be included in this report.
2. No agency requested funding for increased enforcement activities.
3. No agency requested funding for awareness activities. However, the PDFWC hosted a Lunch and Learn on the brain and addiction.
4. Centerstone hosted the Recovery Engagement Center. The REC is open to anyone anywhere on the road to recovery. The REC also welcomes the loved ones and supporters of addicts to come there as well. The REC is staffed with trained recovery coaches. (not PDFWC funded)

End of Year 2 Update:

- 1a. Hope House provided treatment services through the therapeutic community model to 178 men.
- 1b. WIT House served 62 women in their 12 week workshop “Empower Women Today to Design a Brighter Future.”
2. No agency requested funding for increased enforcement activities.
3. No agency requested funding for awareness activities. However, the PDFWC hosted a Lunch and Learn on the Fetal Alcohol Syndrome.
4. Centerstone hosted the Recovery Engagement Center. The REC is open to anyone anywhere on the road to recovery. The REC also welcomes the loved ones and supporters

of addicts to come there as well. The REC is staffed with trained recovery coaches. (not PDFWC funded)

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

A. Problem Statement #3: Youth in Wayne County are engaging in alcohol use.

1. Lifetime use is above the State average at 7th through 10th grades. Monthly use is above the State average at 7th, 8th and 10th grades. This remains at an unacceptable rate of monthly and lifetime usage
2. 38% of youth seeking treatment at Centerstone were there for alcohol use/addiction.
3. Wayne County Juvenile Probation received 96 referrals for drug and alcohol offenses in 2013.
4. There were 60 Illegal Consumption of Alcohol charges filed in adult court for persons 18 to 20 years old in Wayne County in 2013.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

C. Goals:

1. Decrease the number of referrals to Juvenile Probation for drugs and alcohol.
2. Decrease the number of Minor Consuming (18-20 year olds) charges filed in adult court.
3. Increase the numbers of individuals entering into treatment for alcohol use/abuse and addiction.
4. Decrease the lifetime and monthly use of alcohol as reported to the IPRC.

End of Year 1 Annual Benchmarks:

1. The number of juveniles referred to Probation for drug and alcohol offenses increased in 2012.
2. The number of Illegal Consumption of Alcohol (18-20 year olds) charges increased in 2012.
3. The number of youth entering treatment for alcohol stayed the same.
4. Lifetime Usage of Alcohol decreased at all grade levels except 12th grade. Monthly Usage of Alcohol increased in grade levels 7th through 9th and 11th and decreased in grades 10th and 12th.

End of Year 2 Annual Benchmarks:

1. The number of juveniles referred to Probation for drug and alcohol offenses decreased in 2013.
2. The number of Illegal Consumption of Alcohol (18-20 year olds) charges decreased in 2013.
3. The number of youth entering treatment for alcohol decreased.
4. Lifetime Usage of Alcohol decreased at 9th through 11th grades in 2013. Monthly Usage of Alcohol increased at 7th, 10th and 12th grades and decreased at 8th, 9th, and 11th grades in 2013.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

1. Increase evidence based educational opportunities regarding alcohol use.
2. Support agencies engaged in evidence based prevention of alcohol use by youth.
3. Support agencies engaged in evidence based treatment of alcohol use/addiction by youth.
4. Increase the awareness of the risk of harm due to underage alcohol use.
5. Promote “Guiding Good Choices.”

End of Year 1 Update:

1a. 63 youth completed the SMART Kids program at the Boy’s and Girl’s Clubs of Wayne County. Participants saw a 34.6% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based.

1b. Peer Information Center for Teens (PICT) offered Protecting You Protecting Me training to 503 Richmond Community Schools student in 3rd through 5th grades. A portion of the curriculum covers drugs and alcohol. Pre/post testing shows a 30% improvement in knowledge after the series of 6 sessions. This curriculum is evidence-based.

2. Girl’s Inc. trained 31 girls in resistance skills using the curriculum Friendly PEERsuasion. This curriculum is evidence-based.

3. No organization requested funding to provide treatment services to youth. Centerstone continues to offer treatment services to youth.

4a. 20 Northeastern Peer Helpers assisted in the transition of incoming 7th graders and outgoing 8th graders at their school.

4b. 25 Centerville Peer Helpers received training on assisting peers with drug and alcohol related issues. From August through December Peer Helpers had over 500 contacts with students on various issues of school life.

4c. PICT offered Protecting You Protecting Me training to 503 students in 3rd through 5th grades in Richmond Community Schools. A portion of the curriculum covers drugs and alcohol. This curriculum is evidence-based.

4d. Communities in Schools had 449 student contacts in a six month period related to mental health and substance abuse issues.

4e. 30 peer helpers at PICT completed 90 hours of certified training to become nationally certified peer helpers. Training covered communication, intervention, mediation, refusal, and referral skills relating to ATOD.

5. Boys and Girls Clubs certified additional Guiding Good Choices facilitators in 2012. One session was held and attended by 5 parents and one youth.

End of Year 2 Update:

- 1a. 61 youth completed the SMART Kids program at the Boy's and Girl's Clubs of Wayne County. Participants saw a 36% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based.
- 1b. 410 3rd-5th graders participated in the Protecting You Protecting Me (PYPM) curriculum. This curriculum is evidence based. One of six sessions directly addresses substance abuse behavior.
- 1c. 29 teens are certified in the PYPM. 7 new teens were certified in PYPM in 2013 along with 90 hours of nationally certified training relating to ATOD issues and other crisis topics.
- 1d. Youth As Resources held a Youth Summit. The summit was attended by 15 youth from across the county. Focus of the summit was empowering teens to be positive and influential leaders in their respective communities.
2. Girl's Inc. data was not available at the time of this report.
3. No organization requested funding to provide treatment services to youth. Centerstone continues to offer treatment services to youth.
- 4a. 17 Centerville Peer Helpers received training on assisting peers with drug and alcohol related issues. From January through December Peer Helpers had over 800 contacts with students on various issues of school life.
- 4b. 410 3rd-5th graders participated in the Protecting You Protecting Me (PYPM) curriculum. This curriculum is evidence based. One of six sessions directly addresses substance abuse behavior.
- 4c. Communities in Schools had 174 students receive Level 2 services. These students are identified as having multiple risk factors, including substance abuse, for failure in school.
- 4d. 29 teens are certified in the PYPM. 7 new teens were certified in 2013.
- 4e. PICT peer helpers had over 137 peer contacts in relation to substance abuse.
- 4f. Lincoln Peer Helpers had 620 peer contacts. Contacts reinforced pro-social involvement in school and the reduction of destructive risk-taking behavior
5. 26 parents or other adult caregivers completed the Guiding Good Choices training. Exit surveys indicated that 100% of participants would recommend the class to others. The overall rating for the class was 3.6 out of 4.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

A. Problem Statement #4: Adults and youth in Wayne County are using marijuana.

- Wayne County youth are significantly above the State average in 7th through 12th grades on the Lifetime Usage 2013 table.
- Wayne County youth are above the State average in 7th through 11th grades on the Monthly Usage 2013 table.
- 52% of youth seeking treatment at Centerstone were there for marijuana abuse.
- 13% of adults seeking treatment at Centerstone were there for marijuana abuse.
- There were 98 marijuana charges filed in Wayne County in 2013.

Final Update (end of Year 3):

-
-
-
-
-

C. Goals:

- Reduce the availability of marijuana.
- Increase the numbers of individuals entering into treatment for marijuana use.
- Decrease the number of court cases filed related to marijuana by 10%.
- Decrease the number of Juvenile Probation referrals for drugs and alcohol by 7%.
- Be below the State average on the ATOD for marijuana.

End of Year 1 Annual Benchmarks:

- There were no specific eradication efforts in Wayne County in 2012.
- Youth seeking treatment for marijuana stayed about the same. Adults decreased from 117 in 2011 to 72 in 2012.
- The number of marijuana cases decreased by 26% in 2012.

4. The number of juveniles referred to Probation for drug and alcohol offenses increased in 2012.

5. Wayne County youth are above the State average for Lifetime usage in 7th through 11th grades.

End of Year 2 Annual Benchmarks:

1. There were no specific eradication efforts in Wayne County in 2013.
2. Youth seeking treatment for marijuana decreased. Adults decreased in 2013.
3. The number of marijuana cases increased by 19% in 2013.
4. There was 28% decrease in the drug and alcohol referrals for juveniles to probation in 2013
5. Wayne County youth are above the State average for Lifetime usage in 7th through 12th grades.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

1. Support efforts to limit the availability of marijuana.
2. Support agencies engaged in the treatment of addiction to marijuana.
3. Support efforts that increase awareness of the dangers of using marijuana.
4. Support agencies engaged in the prevention of marijuana use.
5. Promote/support local alternative activities for youth.

End of Year 1 Update:

1. Wayne County canines, including State Police, conducted drug sniffs in business and autos in search of marijuana as well as narcotics. More than 100 pounds of marijuana was uncovered as well as narcotics.

2. Centerstone provided treatment services to 96 adults and juveniles for cannabis abuse.

3. There were no targeted campaigns regarding the dangers of marijuana use.

4a. 20 Northeastern Peer Helpers assisted in the transition of incoming 7th graders and outgoing 8th graders at their school.

4b. 25 Centerville Peer Helpers received training on assisting peers with drug and alcohol related issues. From August through December Peer Helpers had over 500 contacts with students on various issues of school life.

4c. PICT offered Protecting You Protecting Me training to 503 students in 3rd through 5th grades in Richmond Community Schools. A portion of the curriculum covers drugs and alcohol. Pre/post testing shows a 30% improvement in knowledge after the series of 6 sessions. This curriculum is evidence-based.

4d. Communities in Schools had 951 student contacts related to mental health and substance abuse issues.

4e. 63 youth completed the SMART Kids program at the Boy's and Girl's Clubs of Wayne County. Participants saw a 34.6% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based.

4f. Communities in Schools had 449 student contacts in a six month period related to mental health and substance abuse issues.

4g. Girl’s Inc. trained 31 girls in resistance skills using the Friendly PEERsuassion curriculum. This curriculum is evidence-based.

4h. 30 peer helpers at PICT completed 90 hours of certified training to become nationally certified peer helpers. Training covered communication, intervention, mediation, refusal, and referral skills relating to ATOD.

5a. Centerville, Hagerstown and Northeastern hosted After Prom parties attended by nearly 1000 Wayne County youth.

5b. Camp Clements Police Youth Camp served 55 low income youth over the summer.

End of Year 2 Update:

1. Wayne County drug canines including Indiana State Police canines participated in felony drug searches of autos and buildings. These searches resulted in the seizure of more than 100 pounds of marijuana, and unknown amounts of crack, heroin, cocaine and methamphetamines.
2. Centerstone provided treatment services to 76 adults and juveniles for cannabis abuse in 2013.
3. There were no targeted campaigns regarding the dangers of marijuana use. However, the PDFWC hosted a Lunch and Learn of the myths and facts of marijuana use.
- 4a. Lincoln Peer Helpers had 620 peer contacts. Contacts reinforced pro-social involvement in school and the reduction of destructive risk-taking behavior
- 4b. 17 Centerville Peer Helpers received training on assisting peers with drug and alcohol related issues. From January through December Peer Helpers had over 800 contacts with students on various issues of school life.
- 4c. 410 3rd-5th graders participated in the Protecting You Protecting Me (PYPM) curriculum. This curriculum is evidence based. One of six sessions directly addresses substance abuse behavior.
- 4d. Communities in Schools had 174 students receive Level 2 services. These students are identified as having multiple risk factors, including substance abuse, for failure in school.
- 4e. 61 youth completed the SMART Kids program at the Boy’s and Girl’s Clubs of Wayne County. Participants saw a 36% increase in their knowledge and attitudes around drug use. This curriculum is evidence-based
- 4f. Girls Inc. data was not available at the time of this report.
- 4g. 29 teens are certified in the PYPM. 7 new teens were certified in PYPM in 2013 along with 90 hours of nationally certified training relating to ATOD issues and other crisis topics.
- 4h. PICT peer helpers had over 137 peer contacts in relation to substance abuse.
5. Centerville and Hagerstown hosted After Prom parties attended by nearly 600 Wayne County youth.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

A. Problem Statement #5: Methamphetamine appears to be an emerging drug of abuse in Wayne County.

1. In 2013 there were 13 methamphetamine cases filed in Wayne County Courts.
2. In 2013 3 people sought treatment for amphetamine abuse at Centerstone.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

C. Goals:

1. Increase the number of case filed for methamphetamine in Wayne County.
2. Increase the number of individuals seeking treatment for methamphetamine addiction.
3. Increase the perception of the risk of harm of using methamphetamine.
4. Increase public knowledge of the signs of manufacturing and use of methamphetamines.

End of Year 1 Annual Benchmarks:

1. The number of methamphetamine cases filed in Wayne County Courts dropped significantly in 2012.
2. The number of individuals seeking treatment for amphetamines at Centerstone dropped in 2012.
3. No progress was made on goal #3.
4. No progress was made on goal #4.

End of Year 2 Annual Benchmarks:

1. The number of methamphetamine cases filed in Wayne County Courts stayed the same.
2. The number of individuals seeking treatment for amphetamines at Centerstone dropped in 2013.
3. No progress was made on goal #3.
4. No progress was made on goal #4.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

1. Increase the awareness of the risk of harm from methamphetamine use.
2. Support agencies engaged in the prevention of methamphetamine use through funding or promotion of evidence-based practices.
3. Support agencies engaged in the treatment of methamphetamine addiction through funding or promotion of evidence-based practices.
4. Support law enforcement efforts to reduce access to methamphetamines.

5. Support opportunities to provide access to treatment for methamphetamine.

End of Year 1 Update:

1. No specific efforts were made on this objective.
- 2a. 63 youth completed the SMART Kids program at the Boy’s and Girl’s Clubs of Wayne County. Participants saw a 34.6% increase in their knowledge and attitudes around drug use.
- 2b. PICT offered Protecting You Protecting Me training to 503 students in 3rd through 5th grades in Richmond Community Schools. A portion of the curriculum covers drugs and alcohol. Pre/post testing shows a 30% improvement in knowledge after the series of 6 sessions. This curriculum is evidence-based.
- 2c. Girl’s Inc. trained 31 girls in resistance skills using the Friendly PEERsuassion curriculum. This curriculum is evidence-based.
- 3a. Centerstone hosted the Recovery Engagement Center. The REC is open to anyone anywhere on the road to recovery. The REC also welcomes the loved ones and supporters of addicts to come there as well. The REC is staffed with trained recovery coaches. (not PDFWC funded)
