DCS Practice Indicator Report Initial Assessment - Use of Substitute Care

For March 2012

Report Description

This report uses data collected over a rolling three month period ending with the current report month. The graphs and numbers for historical months also use a rolling three month period ending with the historical month listed.

Reports Taken – This section has data regarding the reports taken during the three month period ending with the report month.

Count – This is the total number of reports of abuse or neglect that are entered into ICWIS during the period ending with the report month.

Percent Resulting in Screen Outs – This is the percentage of reports that are screened out divided by the total reports taken during the period ending with the report month.

Assessments Substantiated – This section has data regarding the number of assessments with substantiated findings of abuse and/or neglect during the three month period ending with the report month.

Count – This is the total number of assessments with substantiated findings of abuse and/or neglect during the period ending with the report month.

Percent Resulting in Removal – This is the percentage of substantiated assessments during the period that resulted in removal of the child from the home by the end of the report month divided by the total number of substantiated assessments during the period ending with the report month.

DCS Practice Indicator Report CHINS Placements by County

For March 2012

Report Description

This report uses data collected at the end of the current report month. The graphs and numbers for historical months also use data from the end of the historical month listed. This report looks at CHINS children from CHINS cases that were open on the last day of the report month. It also collects where that child is located (in their own home or in substitute care). For the purpose of this report, a child with a non-custodial parent is considered "in home".

Total CHINS Count – This is the number of children that have an open CHINS case on the last day of the report month.

CHINS – This section has data regarding all children that have an open CHINS case on the last day of the month.

In Home – This section has data regarding children that have an open CHINS case on the last day of the month and are in their own home.

Count- This is the number of children that have an open CHINS case on the last day of the month and are in their own home.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are in their own home divided by the total number of children that have an open CHINS case on the last day of the month.

Foster Care – This section has data regarding children that have an open CHINS case on the last day of the month and are in out of home placement.

Count- This is the number of children that have an open CHINS case on the last day of the month and are in out of home placement.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are in out of home placement divided by the total number of children that have an open CHINS case on the last day of the month.

Out of Home Placements – This section has data for children that have an open CHINS case on the last day of the month and are in out of home placement.

Relative Homes – This section has data for children that have an open CHINS case on the last day of the month and are placed with relatives.

Count- This is the number of children that have an open CHINS case on the last day of the month and are placed with relatives.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are placed with relatives divided by the total number of CHINS children in out of home placement at the end of the month.

Foster Homes – This section has data for children that have an open CHINS case on the last day of the month and are placed in foster homes.

Count- This is the number of children that have an open CHINS case on the last day of the month and are placed in foster homes.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are placed in foster homes divided by the total number of CHINS children in out of home placement at the end of the month.

Residential – This section has data for children that have an open CHINS case on the last day of the month and are placed in residential setting.

Count- This is the number of children that have an open CHINS case on the last day of the month and are placed in residential setting.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are placed in residential setting divided by the total number of CHINS children in out of home placement at the end of the month.

Other – This section has data for children that have an open CHINS case on the last day of the month and are in other placement settings. Example would be a court ordered unlicensed placement.

Count- This is the number of children that have an open CHINS case on the last day of the month and are in other placement settings.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are in other placement settings divided by the total number of CHINS children in out of home placement at the end of the month.

DCS Practice Indicator Report

Safely Home Families First by County

March 2012

Report Description

This report uses data collected at the end of the current report month. The graphs and numbers for historical months also use data from the end of the historical month listed. This report looks at CHINS children from CHINS cases that were open on the last day of the report month. It also collects where that child is located (in their own home or in substitute care). For the purpose of this report, children with non-custodial parents are considered to be in their own home.

IA Count – This is the number of children that have an open Informal Adjustment case on the last day of the report month.

Total CHINS Count – This is the number of children that have an open CHINS case on the last day of the report month.

IA and In Home – This section has data regarding children that have an open IA case or CHINS case on the last day of the month and are in their own home.

Count- This is the number of children that have an open IA or CHINS case on the last day of the month and are in their own home.

Percent- This is the number of children that have an open IA or CHINS case on the last day of the month and are in their own home divided by the total number of children that have an open IA or CHINS case on the last day of the month.

IA, In Home or Relative Care – This section has data regarding children that have an open IA case or CHINS case on the last day of the month and are in their own home or in relative care.

Count- This is the number of children that have an open IA or CHINS case on the last day of the month and are in their own home or in relative care.

Percent- This is the number of children that have an open IA or CHINS case on the last day of the month and are in their own home or in relative care divided by the total number of children that have an open IA or CHINS case on the last day of the month.

Target (At or Above) % – The target for the percent of the number of children that have an open IA or CHINS case on the last day of the month and are in their own home or in relative care to the total number of children that have an open IA or CHINS case on the last day of the month is 50% or higher.

Non Relative Foster Care – This section has data for children that have an open CHINS case on the last day of the month and are not in their own home or in relative care.

Count- This is the number of children that have an open CHINS case on the last day of the month and are not in their own home or in relative care.

Percent- This is the number of children that have an open CHINS case on the last day of the month and are not in their own home or in relative care divided by the total number of children that have an open IA or CHINS case on the last day of the month.

Target (At or below) % – The target for the percent of the number of children that have an open CHINS case on the last day of the month and are not in their own home or in relative care to the total number of children that have an open IA or CHINS case on the last day of the month is 50% or higher.

DCS Practice Indicator Report Average Number of Placements

For March 2012

Report Description

This report uses data collected at the end of the current report month. The graphs and numbers for historical months also use data from the historical month listed.

Average Number of Placements Per Child – This is the total number of out of home placements for each CHINS child in out of home placement on the last day of the report month. This includes all placements during the current removal episode. If a child had at least one placement end in the first 8 days from removal, then that child's number of placements was reduced by one.

This number is divided by the total number CHINS children who are in out of home placement on the last day of the report month.

DCS Practice Indicator Report

Length of Stay in Out of Home Placement

Children in Out of Home Placement by Length of Time Since Latest Removal

For March 2012

Report Description

This report uses data collected at the end of the current report month. The graphs and numbers for historical months also use data from the end of the historical month listed. This report looks at CHINS children that were in out of home placement at the end of the month. It measures the number of days since the child was last removed from its home.

One Year - 0 to 365 Days— This is column shows data for CHINS children that have been in out of home placement between 0 and 365 days since the child's last removal.

Count- This is the number of CHINS children that have been in out of home placement between 0 and 365 days since the child's last removal.

Percent- This is the number of CHINS children that have been in out of home placement between 0 and 365 days since the child's last removal divided by the total number of CHINS children in out of home placement at the end of the month.

One Year - 366 to 730 Days— This is column shows data for CHINS children that have been in out of home placement between 366 and 730 days since the child's last removal.

Count- This is the number of CHINS children that have been in out of home placement between 366 and 730 days since the child's last removal.

Percent- This is the number of CHINS children that have been in out of home placement between 366 and 730 days since the child's last removal divided by the total number of CHINS children in out of home placement at the end of the month.

One Year - 731 to 1095 Days— This is column shows data for CHINS children that have been in out of home placement between 731 to 1095 days since the child's last removal.

Count- This is the number of CHINS children that have been in out of home placement between 731 to 1095 days since the child's last removal.

Percent- This is the number of CHINS children that have been in out of home placement between 731 to 1095 days since the child's last removal divided by the total number of CHINS children in out of home placement at the end of the month.

One Year - 1096 Days+— This is column shows data for CHINS children that have been in out of home placement 1096 days or more since the child's last removal.

Count- This is the number of CHINS children that have been in out of home placement 1096 days or more since the child's last removal.

Percent- This is the number of CHINS children that have been in out of home placement 1096 days or more since the child's last removal divided by the total number of CHINS children in out of home placement at the end of the month.

Length Per Child – This column shows data for length of time of CHINS children who were in out of home placement at the end of the report month have been in out of home placement since the child's last removal from their home.

Average- This column calculates the average or "mean" length of time in out of home placement since the last removal per child in out of home placement at the end of the report month.

Median- This column calculates the median length of time in out of home placement since the last removal per child in out of home placement at the end of the report month.

DCS Practice Indicator Report CHINS and IA Permanency Report

For March 2012

Report Description

This report uses CHINS and IA case types that have case type status end date occurring during the month. It then groups these cases using the closure reasons codes into categories of closure reasons. Case with closure reason code “Case opened in error – disregard” are filtered out for the purpose of this report. This report uses the reason codes selected by the worker at the date of case closure. **Adoption closure reasons will not match the number of actual finalized adoptions reported from the hearing information fields in ICWIS/MaGik.**

Closure Reasons are group by:

Description	Category	Description	Category
Child Reunited with Parents	Reunification	Case closed; AG case created	Guardianship
Child never Removed from own home, wardship terminated	Reunification	Child placed with relatives	Relative
Extended wardship terminated (on court order for age 18 to 21)	Emancipation	Child Placed with Legal guardian	Guardianship
Child Returned to Primary Home	Reunification	Child Reached Age of Majority (age 18)	Emancipation
Period of IA ended code used for Informal Adjustment cases only	Reunification	Emancipated Court Ordered (age 18)	Emancipation
Child Adoption Finalized	Adoption	Child Already Reunited with parent (s) when wardship terminated	Reunification

The Permanency column “Total” refers to the total case with reason codes in the Reunification, Adoption, Relative, Guardianship, and Emancipation categories.

The Permanency column “Total within 24 months” refers to the total case that ended within 24 month of the case status type begin date in the Reunification, Adoption, Relative, Guardianship, and Emancipation categories.

DCS Practice Indicator Report Family Case Manager Contacts Report

For March 2012

Report Description

This report uses data collected over at the end of the current report month. The graphs and numbers for historical months also use data from the historical month listed. For the purpose of this report, a person is considered family for the child if they have the following relationships:

- Father
- Mother
- Stepfather
- Stepmother
- Grandfather
- Grandmother
- Pre-adoptive father
- Pre-adoptive mother
- Adoptive grandparent
- Legal Guardian

Children Out of Home Entire Month – This column shows the number of children in out of home placement at the end of the report month who also have a removal date prior to the first of the report month.

Contact Information – This section of the reports shows information regarding FCM contacts (from the contact screens) during the report month.

FCM with Family – This section of the report shows FCM contacts with the child's family (as described above) during the report month.

Children – This is the total number of children that the FCM had at least one contact with a member of the child's family during the report month.

Rate – This is the total number of children that FCM had at least one contact with a member of the child's family divided by the total number of children in out of home placement for the entire month (as described above).

FCM with Child – This section of the report shows FCM contacts with the child during the report month.

Children – This is the total number of children that the FCM had at least one contact with a the child during the report month.

Rate – This is the total number of children that FCM had at least one contact with the child divided by the total number of children in out of home placement for the entire month (as described above).

FCM with Family and Child – This section of the report shows FCM contacts with the child's family (as described above) **AND** the child during the report month. Contact with both had to have occurred for the child to be included in this section. The family and child do not need to present at the same contact, contact with each could have been made in two separate contacts.

Children – This is the total number of children that the FCM had at least one contact with a member of the child's family **and** at least one contact with the child during the report month.

Rate – This is the total number of children that FCM had at least one contact with a member of the child's family **and** at least one contact with the child during the report month divided by the total number of children in out of home placement for the entire month (as described above).

DCS Practice Indicator Report Absence of Repeat Maltreatment

For March 2012

Report Description

This is a description of the key elements used in this report.

Time Period – The time period used in this report is the 12 months prior to the month of the report.

Assessments during time period – The assessment used in this report are assessment with BOTH report date AND approval date during the time period (12 months prior to the month of the report).

Victim Selection – The children used in this report were identified as having at least one substantiated allegation of abuse or neglect on an assessment during the time period.

First Occurrence – This looks at the victims of substantiated abuse or neglect during the first 6 months of the time period (6 to 12 months prior to the month of the report). If a child was a victim in multiple assessments with substantiated abuse or neglect, the assessment with the earliest report date is considered the first occurrence.

Recurrence Time Period – The time period used to see if a child is a substantiated victim in a recurring assessment of abuse or neglect is based off the report date of the first occurrence. The recurrence period begins one day after the first occurrence report date and ends 183 after the first occurrence report date ($\geq 1^{\text{st}}$ Occurrence +1 and $\leq 1^{\text{st}}$ Occurrence +183). If a child has multiple recurrences, the earliest report date in the recurring time period is considered the recurring assessment.

Here is a visual representation of an example. This is a report for December of a given year. The time period to review assessments would run from Jan 1st to Dec 31st. The time period for a first occurrence would be Jan 1st to Jun 30th. If a child had a first occurrence on Feb 7th, the recurrence period would run from Feb 8th to Aug 9th. If the child had a recurrence in Aug 5th, that would be considered repeat maltreatment. If the child had a recurrence Oct 10th, that would not be considered repeat maltreatment because it fell outside the recurrence period.

Percent of absence of repeat maltreatment – This calculation uses the terms defined above. The numerator is the number of children with a first occurrence minus the number of children with a recurrence. The denominator is the number of children with first occurrence.

$$\frac{(1^{\text{st}} \text{ Occurrence} - \text{Recurrence})}{1^{\text{st}} \text{ Occurrence}}$$

For the purposes of this report, the county the child is assigned to is based off the county of first occurrence. If a child has a recurrence in a different county, the repeat will show for the county of the first occurrence.

DCS Practice Indicator Report Absence of Maltreatment in Foster Care

For March 2012

Report Description

This is a description of the key elements used in this report.

Time Period – The time period used in this report is the 12 months prior to the month of the report.

Assessments during the time period – The assessment used in this report are assessment with BOTH report date AND approval date during the time period (12 months prior to the month of the report).

Victim of maltreatment in Foster Care – The children used in this report were identified as having at least one substantiated allegation of abuse or neglect on an assessment during the time period where the perpetrator is a foster parent or institutional staff.

Children in Foster Care during the time period – All CHINS children with an open removal episode at any time during the 12 months prior to the month of the report. Also included are Probation children (who are IV-E eligible) with an open removal episode at any time during the 12 months prior to the month of the report.

Percent of absence of maltreatment – This calculation uses the terms defined above. The numerator is the number of children in foster care minus the number of victims of maltreatment in foster care. The denominator is the number of children in foster care.

$$\frac{(\text{Children in Foster Care} - \text{Victims of maltreatment in Foster Care})}{\text{Children in Foster Care}}$$
