The annual credit union fee is based on total credit union assets as of December 31, 200X. An example of this tiered fee schedule would be if a credit union has \$112,000M in assets as of 12/31/XX, the fee would be \$13,565 (amount for assets over \$100,001M but not over \$500,000M) + \$960 (12,000M * \$.08 per thousand) for a total fee of \$14,525.

If a financial institution receives a composite 3 rating at its most recent state or federal safety and soundness examination, the financial institution's annual fee shall be increased by 25%. If a financial institution receives a composite 4 or 5 rating at its most recent state or federal safety and soundness examination, the financial institution's annual fee shall be increased by 50%. This assessment shall be pro-rated on a quarterly basis. The increased supervisory assessment shall stay in effect until the quarter following the financial institution's receipt of a composite 1 or 2 rating at a state or federal safety and soundness examination.

Newly chartered and converted credit unions will be charged a percentage of their annual fee, as calculated above, based on the number of months that they are in existence as a state chartered institution during the fiscal year.
