

## **MLO CERTIFICATION FOR EDUCATION AND TESTING**

For those Mortgage Loan Originators formally licensed by the Indiana Secretary of State (SOS), education and testing must be certified by the SOS. Education and testing completed (and passed) within the past two years with SOS should satisfy the requirements.

The Department of Financial Institutions (DFI) DOES NOT certify education and testing. The certification must come from SOS based on their records.

Certification for education and testing is requested from the Secretary of State once a completed application for the Mortgage Loan Originator license is received by the Department of Financial Institutions.
