

## ***12 Lead ECG Interpretation and Capnography***

Wabash City Fire and EMS is offering a 12 lead ECG interpretation, Advanced 12 lead and Capnography class by Bob Page. Bob is an internationally known speaker, instructor, author and paramedic. If you have taken a class by Mr. Page previously you know that he can take ordinarily dry and hard to teach topics and transform them into a fun, learning experience. He is a nationally registered paramedic and critical care paramedic and has earned a faculty appointment at the University of Maryland, Baltimore County.

February 22 @ 08:00 12 lead ECG interpretation: This course has been adopted by the Critical Care Paramedic course curriculum. Topics covered include **proper lead placement, axis and hemiblock determination, bundle branch blocks, differentiating wide complex tachycardia, and myocardial infarction recognition and the use of 15 lead ECG.**

February 23 @ 0800 Enhanced 12 lead ECG course. Continuation of day 1. Topics include, **AMI diagnosis in the presence of an LBBB, atrial & ventricular hypertrophy, drug & electrolyte changes, acute coronary syndromes and case based presentation.**

## ***12 Lead ECG Interpretation and Capnography***

February 24 @ 0800 Understanding Capnography: Nationally presented course that is an eye opening experience when participants learn the incredible benefits gained from full ETCO<sub>2</sub> monitoring and waveform assessment. Topics covered include, **review of A&P of the respiratory system, the role of capnography in cases of cardiac arrest to COPD, from seizures to shock, in fact, anyone with a problem with ABC's should have continuous monitoring of ETCO<sub>2</sub> and waveform.**

**Who Should Attend:** RN, Paramedics and others involved in the emergency or critical care of patients.

**Where:** Classes will be held at REMC building 350 Wedcor AV Wabash In.

**When:** Friday February 22nd through Sunday the 23rd beginning at 0800.
