

**Changing Lives, Changing Indiana.**

# Train for an Exciting Career as an Emergency Medical Technician

## Program Highlights

- \* Ivy Tech – Southeast’s EMT Training Program exceeds the Indiana Department of Homeland Security’s guidelines for EMT-B training.
- \* Courses are taught by highly experienced Paramedics, EMTs and Nurses, all of whom are Certified Primary Instructors (PI).
- \* Dynamic, relevant classroom training including realistic scenarios and externships in both the ambulance and emergency room environment.
- \* Small class sizes with multiple skill instructors coupled with high academic standards result in a superior passing rate on the state licensing exam.
- \* According to the U.S. Department of Labor, there will continue to be high demand for EMTs and paramedics at private ambulance companies, police and fire departments, hospitals, gaming/hospitality, amusement parks, manufacturing, and many others.
