Scenario 4 Directions

This scenario is designed to be completed by a company of four. The company of four will be divided into two teams of two. One team will complete the skills assigned to team 4a and the other team will complete the skills assigned to team 4b. Once the scenario is completed the teams will switch assignments and complete the scenario again. This will ensure that all candidates participate in all skills assigned. It is up to the evaluators to ensure that candidates share in the work equally. Evaluators must be familiar with all associated skill sheets prior to the commencement of the skills examination. Apparatus used in this scenario must be placed in a position that will obscure the scenario activities from candidates at other skill stations. Candidate Companies must stay together at all times. It is the responsibility of the evaluators to ensure that candidates do not leave their skill station until they are directed to rotate to the next skill station.

Prior to commencement, evaluators will make team assignments, brief all candidates of the scenario and conduct a PPE inspection. Once this is complete the Lead Evaluator (or designee) will be notified that the crew is ready to begin. Candidates will mount the apparatus and proceed to the incident. Team 4a will dismount the apparatus, conduct a scene size up and check for hazards. Each member will report their findings individually to the evaluator and gather the necessary equipment to conduct rescue operations force entry into the structure and conduct search and rescue operations. Team 4b will set up for RIT operations and set up scene lighting.
