

Incident Response to Terrorist Bombings  
Prevention of and Response to Suicide  
Bombing Incidents

May 11, 2010      Evansville, Indiana

**Training is hosted by the  
Evansville Police Department**

***Presented by the National Energetic Materials Research and Testing Center/New Mexico Tech, the lead DHS National Domestic Preparedness Consortium partner for explosives and firearms, live explosives, and incendiary devices training.***

### Session I: Incident Response to Terrorist Bombings – Operations

Designed to prepare emergency responders to perform effectively and safely during bombing incidents, principally in support roles within the warm and cold zones of the incident scene. Familiarization with improvised explosive devices (IEDs) and explosive materials and detailed training on critical response actions during pre-and post detonation operations. In addition, the course addresses actions that emergency responders can take to prevent and/or deter bombing attacks against targets in their communities.

#### Course Objectives

Prepare emergency responders to perform critical response actions during pre- and post-detonation incidents involving terrorist use of energetic materials (explosives and incendiaries)

Provide emergency responders with techniques to prevent and/or deter terrorist attacks involving energetic materials

Instill in participants a respect for the destructive potential of energetic materials that may be used in terrorist attacks

### Session II: Prevention of and Response to Suicide Bombing Incidents

Provides training on the suicide bombing threat. Includes familiarization with improvised explosive devices (IEDs) and explosive materials typically used in suicide bombings. It also addresses actions that individual emergency responders can take to assist in preventing or deterring suicide bombings as well as techniques, tactics, and procedures that support an effective and safe response to a suicide bombing.

#### Course Objectives

Provide participants with the skills and knowledge necessary to identify and report pre-attack indicators

Participate in an integrated response to a suicide bombing using safe and effective techniques, tactics, and procedures.
