

THE DANGER DOESN'T END WHEN THE FIRE'S OUT.

This photo was taken in 1980 in Canada. A lot has changed since then, but job hazards – especially during investigations – are sometimes still not treated with the caution they deserve.

Photo: Carl Hildner/Masterfile

YOUR SCBA THE FIRST LINE OF DEFENSE AGAINST TOXIC EXPOSURE.

Toxic fumes from smouldering debris are just as harmful as those from an active fire. So until you're sure the danger's really over, wear your SCBA.
