

Floor Plan Required Information

- 1) Draw a sketch of the floor plan of the building where consumer fireworks will be sold.
- 2) If the fireworks sales space is part of a larger space, show the outline of the whole space, as well as the space that will be used for the fireworks sales.
- 3) Indicate where product will be located, including whether it will be on tables, in racks, or on the floor and how high it will be stacked.
- 4) Indicate where the exits directly to the outside from the building/leased space are located and the public aisles that lead to those exits.
- 5) Indicate the location of the exit signs and emergency lighting.
- 6) If a fire alarm system is in the building/leased space, indicate the location of the red boxes labeled “Pull Stations”.
- 7) Floor plan will need to be downloaded to your on line application in order to apply for any fireworks location.

Floor plan below is only given as a sample of one type of location.
