

Phase II Test Results

The "x" shown in the Oil/Gas to Tax & Bill, CAMA to Tax & Bill, Pers Prop to Tax & Bill, and Sale Disclosure to CAMA columns means that a particular test and/or file pertain to that particular module pairing of the property tax management system				
Test	Oil/Gas to Tax & Bill	CAMA to Tax & Bill	Pers Prop to Tax & Bill	Sales Disclosure to CAMA
Test Area 2: Sales Disclosure Data Integration to CAMA Software				
Purpose: Demonstrate that the property tax management system can perform functions across sub-systems without requiring users to manually re-key data. <50 IAC 26-15, 50 IAC 26-18-3>				
Tests: Upon integration of sales data from the sales disclosure system, demonstrate that: <ol style="list-style-type: none"> 1. The CAMA system has the functionality to capture and maintain all sales-related data required for pricing models and ratio study completion. Demonstrate that the transaction history has been updated and sales data are shown for the applicable parcels. 2. The CAMA system has the functionality to capture and maintain in the database a snapshot of the physical characteristics of the property at the time of the sale as required by 50 IAC 27-3-1.

Phase II Test Results

The "x" shown in the Oil/Gas to Tax & Bill, CAMA to Tax & Bill, Pers Prop to Tax & Bill, and Sale Disclosure to CAMA columns means that a particular test and/or file pertain to that particular module pairing of the property tax management system

Test	Oil/Gas to Tax & Bill	CAMA to Tax & Bill	Pers Prop to Tax & Bill	Sales Disclosure to CAMA
Test Area 6: Creation and Exporting of Files				
Purpose: Demonstrate the property tax management system's ability to export all state specified data in the format required under this article. <50 IAC 26-18-3, 50 IAC 26-20, 50 IAC 26-21>				
Tests:				
1. Create the following files for the Department. The software system required to generate each file is listed in parentheses.				
a. PARCEL		x		
b. LAND		x		
c. IMPROVE		x		
d. DWELLING		x		
e. BUILDING		x		
f. BLDDETL		x		
g. APPEAL		x		
h. SALEDISC				x
i. SALECONTAC				x
j. SALEPARCEL				x
k. PERSPROP			x	
l. POOLDATA			x	
m. APPEALPP			x	
n. MOBILE		x	x	
o. APPEALMH		x	x	
p. OILGAS	x			
q. OILGASALL	x			
r. TAXDATA	x	x	x	
s. ADJMETS	x	x	x	
As it pertains to the three SALE files listed above, demonstrate that the sales disclosure system can correctly extract sales disclosure data on a weekly basis for upload into the Gateway SDF portal. The extract should contain any new or edited sales disclosure filing since the last upload to the Gateway SDF.				x
