

## Phase II Test Results

The "x" shown in the Oil/Gas to Tax & Bill, CAMA to Tax & Bill, Pers Prop to Tax & Bill, and Sale Disclosure to CAMA columns means that a particular test and/or file pertain to that particular module pairing of the property tax management system				
Test	Oil/Gas to Tax & Bill	CAMA to Tax & Bill	Pers Prop to Tax & Bill	Sales Disclosure to CAMA
<b>Test Area 2: Sales Disclosure Data Integration to CAMA Software</b>				
<b>Purpose:</b> Demonstrate that the property tax management system can perform functions across sub-systems without requiring users to manually re-key data. <50 IAC 26-15, 50 IAC 26-18-3>				
<b>Tests:</b>				
Upon integration of sales data from the sales disclosure system, demonstrate that:				
1. The CAMA system has the functionality to capture and maintain all sales-related data required for pricing models and ratio study completion. Demonstrate that the transaction history has been updated and sales data are shown for the applicable parcels.				x
2. The CAMA system has the functionality to capture and maintain in the database a snapshot of the physical characteristics of the property at the time of the sale as required by 50 IAC 27-3-1.				x

<b>Evaluator Observations</b>
1) Vendor demonstrated this test in a compliant manner with the specified requirement.
2) Vendor demonstrated this test in a compliant manner with the specified requirement.

## Phase II Test Results

*The "x" shown in the Oil/Gas to Tax & Bill, CAMA to Tax & Bill, Pers Prop to Tax & Bill, and Sale Disclosure to CAMA columns means that a particular test and/or file pertain to that particular module pairing of the property tax management system*

Test	Oil/Gas to Tax & Bill	CAMA to Tax & Bill	Pers Prop to Tax & Bill	Sales Disclosure to CAMA
<b>Test Area 6: Creation and Exporting of Files</b>				
<b>Purpose:</b> Demonstrate the property tax management system's ability to export all state specified data in the format required under this article. <50 IAC 26-18-3, 50 IAC 26-20, 50 IAC 26-21>				
<b>Tests:</b>				
1. Create the following files for the Department. The software system required to generate each file is listed in parentheses.				
a. PARCEL		x		
b. LAND		x		
c. IMPROVE		x		
d. DWELLING		x		
e. BUILDING		x		
f. BLDDCTL		x		
g. APPEAL		x		
h. SALEDISC				x
i. SALECONTAC				x
j. SALEPARCEL				x
k. PERSPROP			x	
l. POOLDATA			x	
m. APPEALPP			x	
n. MOBILE		x	x	
o. APPEALMH		x	x	
p. OILGAS	x			
q. OILGASALL	x			
r. TAXDATA	x	x	x	
s. ADJMENTS	x	x	x	
<i>As it pertains to the three SALE files listed above, demonstrate that the sales disclosure system can correctly extract sales disclosure data on a weekly basis for upload into the Gateway SDF portal. The extract should contain any new or edited sales disclosure filing since the last upload to the Gateway SDF.</i>				x
