Andrew,

In response to your email dated December 21, 2007, please see the following:

1. Are Northrop Grumman IT Services included in these expenditures? Is there a contract in place with NG?

The costs submitted did not include NG. There are costs associated with the mainframe however to determine the costs for the Property System independently would be more than difficult and perhaps would not possible by ISA. The Northrop Grumman contract is several hundred pages long and would not assist with determining expenditures associated with the Property System.

2. Could you please send Manatron reassessment contract?

As stated by Jeff Tracy the Manatron contract can be found on the DLGF website.

3. Who would be the best person to speak with concerning GIS chargeback totals for the Auditor, Assessor and Treasurer?

Could you please be more specific as to the actual need for GIS chargeback information? This would appear to be a difficult task, however if I better understood the need perhaps I could provide more direction for you.

Please contact me if you would like to discuss further.

Thank you,

Barbara Thompson
