Subject: Re: Guthrie Adams of Dusable Communications

Dear Mr. Sterling:

I am sending this to the DUAB because the individual featured in this notice is also the same person that is supposedly the principal in a company that Rudy Clay is touting as ready to invest 100-million dollars into a data center in Gary. The name of the company is Dusable Communications.

I anticipate that Mayor Clay will be crowing about this project when he appears before the board at tomorrow's hearing. I just thought it would be handy for the board members to have a little background info.

Did you get my letter. Sent yesterday. Please note. The city chose to self fund hmo with professional claims management. This company is not licensed with state of Indiana as hmo carrier. Also employees never signed applications to be put in this plan. Effective 1-1-2011. I notified department of insurance. I am trying to come to meeting. Depending on weather. Please look at Pfm report page 32 +. Sincerely Lita.

I know you have received allot of information regarding this effort.

As a Miller Beach resident of Gary, I have no confidence in City government.

I would like a bankruptcy and take over by the state ASAP.

In the end that is the only way Gary will ever turn around.
