

## Switzerland County

Switzerland County is very rural and has very few homogenous areas even in the town of Vevay. Sales from 2010 and 2011 and some 2012 were used in the study. Residential improved parcels were divided by Township. Residential vacant parcels were grouped on a countywide basis as were commercial and industrial both vacant and improved.

You will find a tab marked Sales not used in the Study. This tab contains sales that were marked valid, but were not appropriate for use in the Study. Each sale has an explanation comment on the parcel number.
