

# Help Your Dog be a Good Guest

Hiking trails, picnic areas and campgrounds can be busy, unfamiliar and even sometimes overwhelming places for dogs. Whether you brought Squeakers the Great Dane, or Butch the Chihuahua, there are some basic courtesies we hope you will remember while you visit:

**Six foot leash rules apply to the entire property.** The only time your dog may be off the leash is inside your camper, tent, or vehicle.

**Your dog is a guest at this property, but the wildlife actually lives here.** Please respect wildlife and plant life.

**Please pick up after your dog.** Bring along your extra plastic grocery bags to hold your doggy droppings. Please place the bags in the campground dumpster or pack them out if you are visiting just for the day. (Hint: double bagging is a helpful idea!)

**Campground quiet hours (11pm– 7am) apply to all of our guests, including dogs.** If your dog is fairly vocal outside of quiet hours, we ask that you leave your pet at home so everyone gets a good night's sleep!

**Because you are only visiting, there is no need to be territorial.** If your dog is territorial, or just plain aggressive, he or she should be left at home in familiar territory.

**If you decide to go exploring, please take your dog with you.** You must keep your pet with you at all times. Remember to think ahead for your pet, as well as yourself, and make sure he or she will be able to drink fresh, clean water frequently throughout the day.

**Make sure your dog's vaccinations are up-to-date.** This is a state law. Your pet may encounter other pets (or wildlife) who may not be in perfect health, and vaccinations provide protection.

\*\*If your dog finds these rules too strict, please ask about local kennel options.
