

QUALIFIED PROFESSIONALS ROSTER
for
Architecture/Historic Architecture
and
Architectural History/History

The following consultants have been determined to meet qualification standards for cultural resource management professionals. These standards (promulgated by the National Park Service and published in 36 CFR Part 61) define the minimum education and experience required to perform identification, evaluation, registration, and treatment activities for historic properties. In some cases, additional areas or levels of expertise may be needed, depending on the complexity of the task and the nature of the properties involved. The list has been compiled by the Indiana Division of Historic Preservation Archaeology (DHPA) as a convenience to members of the public.

Inclusion on this list does not constitute endorsement by the Division of Historic Preservation Archaeology, nor is this list a guarantee that an individual has the specific project experience needed to meet the requirements for DHPA grant work. Furthermore, there may be other qualified consultants with whom the DHPA has not had contact that do not appear on the list. Individuals and firms that meet the qualifications and wish to appear on this list should contact the DHPA at 317-232-1646 or go to www.in.gov/dnr/historic/qp_become.html for information on how to appear on this list.

Please note that project costs may vary considerably between companies, and it is recommended that more than one estimate be obtained. Historic preservation consulting is a professional business, and it is recommended that you take the same care selecting a consultant as you would any contractor.
