**INDIANA STATE PARK**

Brown County State Park is the largest Indiana State Park. This nationally known, 15,776-acre facility opened in 1929. In the first few years, as the park grew in popularity, several facilities were developed, including Abe Martin Lodge, several cabins and Ogle Lake. The roads, entrances, and many trees were added or improved. On June 1, 1934, the Veterans Civilian Conservation Corps Company 1557 began its work in the park. Its planting of black locust, black walnut, various pines and spruces gave nature a helping hand in healing extreme erosion on previously cleared slopes. The CCC workers also built many of the existing buildings, shelters, ovens, roads, vistas, trails, and the west lookout tower.

The many miles of marked trails are ideal for those who prefer seeing the park on foot, on horseback, or by bicycle. About 70 miles of bridle trails, 20 miles of hiking trails, and 20 miles of mountain biking/hiking trails...
