All alcoholic beverages are prohibited within the boundaries of Indiana Dunes State Park. Fines or arrest could occur for violations.

Please let wild animals remain wild. Feeding deer, raccoon and other wild animals is prohibited. Feeding of all wild animals can result in harm to both animals and people. Animals who depend on handouts have become a nuisance to park visitors and a danger to themselves. Animals that are trained to depend on handouts are often aggressive, particularly during the mating season. Feeding wildlife creates problems for them and for the people who see the consequences of this practice.

The central idea of preservation of the wilderness area is to keep it as natural as possible. This is best done by leaving it alone. Wild animals are most comfortable when they are left alone. If a person must approach an animal in order to get a better view, the animal should be left alone. From a distance, the animal can return to the safety of the wilderness. From too close, the animal can become overly accustomed to the presence of humans. The animal can become overly friendly and lose its natural instinct to be afraid of the human species.

Camping—Campground has two comfort stations that are heated, year-round and equipped with flush toilets, hot water and showers. 140 campsites with 50 amp. service can accommodate camping structures up to 50 feet long.
