The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of $0.10 per 8 1/2" x 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Avon, IN 46123-7960

Cumberland Road will be raised approximately 2.5' and will be paved. Details of the project are contained in information and plans received at the Division of Water on February 4, 2015.

At the Cumberland Road crossing near Noblesville, Noblesville Township, Hamilton County Section 5, T 18N, R 5E, Riverwood Quadrangle Quad Code: 4008518 UTM Coordinates:  Downstream 4432910 North, 585745 East

Statute/Rule: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
In an effort to alleviate both a bank erosion problem and a log jam issue, the existing woody debris was pushed against the stream bank in two separate areas. The debris pile at the upstream site measures approximately 130' long, 8' high, and 4' wide; and at the downstream site measures 60' long, 5' high, and 3' wide. Both debris piles will be left in place in order to stabilize the bank. Details of the project are contained in information and plans received at the Division of Water on February 24, 2015 and March 30, 2015.

Location: Along the right (north) streambank near Rossville, Ross Township, Clinton County Section 21, T 23N, R 2W, Pyrmont Quadrangle Quad Code: 4008646 UTM Coordinates: Downstream 4475221 North, 530655 East

Stream : Indian Creek
Applicant : Whitaker Skid & Crate
Dale Whitaker
1240 Old North Bridge Road
Corydon, IN  47112-2259

Description : A 60' by 32' by 12' metal dry storage unit is proposed. The proposed unit will be 3-sided. Details of the project are contained in information and plans received at the Division of Water on March 16, 2015, March 23, 2015 and March 30, 2015.

Location: Beginning approximately 825' east and 430' north of the State Road 337 stream crossing and extending approximately 60' east and 32' north near Corydon, Harrison Township, Harrison County Section 30, T 3S, R 4E, Corydon East Quadrangle Quad Code: 3808621 UTM Coordinates: Downstream 4230566 North, 576676 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
A bridge replacement is proposed. The existing bridge has 4-spans and is 27.3' wide and 206' long. The proposed bridge has 3-spans and is 58' wide and 213.25' long. The proposed bridge is shifted east an average of 15' and the skew is removed to align with the current river flow. The peninsula west of the bridge will be widened on the north side. The peninsula will be widened an average of 9.4'. A retaining wall will be constructed on the north side of the peninsula as part of the widening to minimize the environmental impact. Details of the project are contained in information and plans received at the Division of Water on March 13, 2015.

A pond will be constructed by excavating an approximate 200' by 160' area. The excavated material will be placed in multiple areas on the property. Details of the project are contained in information and plans received at the Division of Water on March 18, 2015.
## Application # : FW-27922

### Stream : Unnamed Tributary  
Youngs Creek

### Applicant : City of Franklin  
Travis Underhill, PE  
70 East Monroe Street  
Franklin, IN 46131

### Description : This project consists of replacing 77’ of the downstream end of a stormwater outfall structure which discharges into an Unnamed Tributary to Young’s Creek. The existing 90” (rise) x 78” (span) brick arch outfall structure crossing under State Road 44 (Jefferson Street) will be replaced with an 84” (rise) x 96” (span) reinforced concrete box and concrete headwall. Energy dissipation consisting of an 18” thick section of riprap over geotextile fabric will be installed within the limits of the headwall. Details of the project are contained in information received electronically at the Division of Water on March 27, 2015 and in plans and information received at the Division of Water on

### Location : Beginning at the downstream end of an outfall structure located 600’ upstream from the convergence of Young’s Creek and an unnamed tributary to Young’s Creek, hereby referred to as Roaring Run, and ending 680’ upstream from said convergence. The convergence of said tributary and creek is located approximately 1,150’ downstream of the bridge carrying U.S. 31 over Young’s Creek. The outfall structure carries S.R. 44 (aka Jefferson St.) over Roaring Run approximately 1,425’ east of the U.S. 31 and S.R. 44 intersection at Franklin, Franklin Township, Johnson County  
Section 14, T 12N, R 4E, Franklin Quadrangle  
Quad Code: 3908641  
UTM Coordinates: Downstream 4370505 North, 580921 East

### Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application # : FW-27923

Stream : Iroquois River

Applicant : Yates Construction Inc
            Rick Yates
            P O Box 41
            Kentland, IN  47951

Description : The existing twin, continuous steel beam bridges carrying U.S. 41 over Iroquois River will receive deck replacements and concrete barrier railings. The spill through abutments will have the riprap on the side slopes repaired and some riprap placed around the bridge piers to provide scour protection. Details of the project are contained in information received electronically at the Division of Water on March 30, 2015 and in plans and information received at the Division of Water on

Location : The bridge is located along U.S. 41 approximately 4 miles north of Kentland, IN in Newton County.
            Near Kentland, Jefferson Township, Newton County
            Section 34, T 27N, R 9W, Kentland Quadrangle
            Quad Code: 4008774
