The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of $0.10 per 8 1/2" X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.
Application # : FW-27595

Stream : Tippecanoe River

Applicant : Jeffrey M Hasse
6508 North State Road 25
Rochester, IN  46975-7411

Description : A new 30' by 70' pole barn will be constructed. The barn will have a lowest floor elevation of 768.3', NAVD. The lowest floor will be elevated at least 3' above the Base Flood Elevation of 765.3', NAVD. The new structure will be elevated on approximately 360 cubic yards of clean fill material placed at a maximum depth of 6' located closest to the river sloping up to match existing grade elevations close to State Road 25. Also, a new 20' by 30' storm shelter will be constructed below existing grade underneath the proposed pole barn. In addition, a new 100' long barb wired fence will be constructed along the west end of the property. Details of the project are contained in information and plans received at the Division of Water on June 17, 2014, July 9, 2014 and July 28, 2014.

Location : 6504 North State Road 25
near Rochester, Newcastle Township, Fulton County
Section 12, T 31N, R 3E, Argos Quadrangle
Quad Code: 4108622
UTM Coordinates: Downstream 4555871 North, 571832 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

| FW-27640     | Cane Creek | ANR Pipeline Company | Three exposed pipelines crossing Cane Creek will be covered and stabilized. Approximately 195' of the existing right and left banks will be regraded to a 3:1 slope and stabilized with a maximum of 18'' of riprap. A water-filled coffer dam will be installed around the perimeter of the workspace within the creek. Timber mats will be installed will be extended over the bed of the creek to to provide a stable working platform for equipment and to dissipate the weight of the heavy equipment. Details of the project are contained in information and plans received at the Division of Water on July 28, 2014 and July 29, 2014. | Approximately 1200' upstream from the confluence with Dillon Creek at Cuzco, Columbia Township, Dubois County

Stream : Ohio River
Applicant : Gaming Entertainment Indiana LLC
           Steven Jimenez
           777 Rising Star Drive
           Rising Sun, IN 47040

Description : Maintenance dredging will be performed along an area approximately 660' long
by 300' wide to a maximum depth of 12' below the normal pool elevation of 455.0' (NGVD29). The material will be removed by hydraulic dredging and will be
placed in a previously approved disposal area located about 1000' upstream.
Details of the project are contained in information and plans received at the
Division of Water on August 6, 2014.

Location : Ohio River mile 505.5 right bank
           near Rising Sun, Ohio County
           UTM Coordinates: Downstream 4313635 North, 686694 East

Application # : FW-27654

Stream : Turkey Creek

Applicant : Lake County Highway Department
Duane A Alverson, PE
1100 East Monitor Street
Crown Point, IN  46307-3521

Description : This project is the in-kind replacement of a failing bridge structure. The existing structure has a 36' span and a 5.6' rise, this structure will be replaced for the following reasons: It flows under pressure and during the 100 year annual exceedance probability flood event. According to the Structure Inventory and Appraisal Report, the structure has beam spalling with 38% exposed strands on the deck and superstructure, a cracked and potholed wearing surface, pile splitting and moderate rot on the substructure, bank erosion and drifting of the channel, cracked and potholed approach roadway, significant structural deterioration, and a very narrow width for two lanes. It was also mentioned that the east fascia beam has a 1.5' wide spall with 6 exposed strands that all appear to be corroded, with one being broken. The beams have minor spalls at the deck drains, and the east bridge rail is loose. Details of the project are contained in information received electronically at the Division of Water on August 8, 2014 and in plans and information received at the Division of Water on

Location : The project is located on Arbogast Avenue (Fairbanks Street)(Colfax Street) in Lake County, Indiana near the Town of Griffith at the crossing with Turkey Creek. The bridge is approximately 8.65 miles upstream of the mouth of Turkey Creek at Lake George. The project is in the Saint John Quad, Section 11, T35N, R9W near Griffith, St. John Township, Lake County

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Applicant : Ronald R Alexander
21278 Willow View
Bristol, IN 46507

Description : Replace approximately 166' of existing seawall, which has cracked and separated due to freeze/thaw, boat wake, muskrats undermining bank. Existing seawall was constructed in mid-1960's. New seawall will consist of 8' lengths of 8 gauge steel sheet pilings capped with 4" angle iron bolted at each panel. Deadmen will be placed at 9' intervals connected to new structure. Each end will have 90 degree corner and go back 4' into bank. Existing concrete will be broken up and used as backfill between new structure and existing bank. New structure will follow channel at same location and approximately same height as existing structure. Details of the project are contained in information received electronically at the Division of Water on July 28, 2014 and in plans and information received at the Division of Water on

Location : Upper St. Joseph River west of Bristol IN in Eastview Estates Subdivision, Section III, Lot #13, Ex TRI in southeast Corner of Section 38 N, Range 6 E, Washington Township, Elkhart County, State of Indiana. Beginning at intersection of C.R. 17 & C.R. 8, go east on C.R. 8 approx 1/2 mile. Turn south onto Echo Lane, which curves and becomes Willow Vw, Project is located at end of Willow Vw where it curves north and becomes Laguna Dr. near Bristol, Washington Township, Elkhart County T 38N, R 6E

Statute/Rule : Navigable Waterway Act, IC 14-29-1, with the associated Navigable Waterway Rule, 312 IAC 6
