The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of $0.10 per 8 1/2" X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.
Along approximately 11.3 miles of Burgett Ditch, maintenance dredging is proposed to regain original capacity. The excavation will vary from 0-4'. Clearing of trees and brush should be limited as the banks are clear for almost all of the project reach. Dredged material will be excavated and deposited in a one-step process. Seeding of deposited materials will be completed as needed. Details of the project are contained in information and plans received at the Division of Water on September 23, 2014.

The project begins 25' east of the center line of County Road 700 East and continues upstream for 11.3 miles ending on the west side (downstream) of County Road 1400
DOWNSTREAM: near Monticello, Liberty Township, White County

Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application # : FW-27717
Stream : Trier Ditch
Applicant : Allen County Highway Department
Bill Hartman
200 East Berry, Suite 280
Fort Wayne, IN  46802

Description : The existing three span continuous concrete adjacent box beam bridge will be
rehabilitated and widened. The existing bridge has an out to out width of 32'.
The proposed bridge will be widened to have an out to out width of 39' 10" to
accommodate a proposed 8' multi-use pathway on the north side of the bridge.
The two existing piers will be extended to the north 7' 8" to allow for the widening
of the bridge and the piles will be encased in 18" of concrete. The superstructure
will be replaced with continuous composite rolled steel beams. The existing end
bents and wing walls will be completely removed and reconstructed. Riprap will
be placed over geotextile under the widened portion of the bridge along both of
the spill slopes. Also riprap will be used to reshape the existing spill slopes.
Details of the project are contained in information and plans received at the
Division of Water on September 29, 2014.

Location : At the Main Street stream crossing
near New Haven, Adams Township, Allen County

IAC 10
Application # : FW-27722
Stream : Hart Ditch
Applicant : Milan Kesic
1440 Park West Circle
Munster, IN  46321

Description : Approximately 120’ of eroded steambank along the right (eastern) side will be stabilized with stone-filled gabion baskets. The toe of the proposed wall will be stabilized with a gabion mattress. Fill will be placed behind the proposed gabion wall to match the existing grade. Details of the project are contained in information and plans received at the Division of Water on October 3, 2014 and October 6, 2014.

Location : 1440 Park West Circle
at Munster, North Township, Lake County
Section 31, T 36N, R 9W, Highland Quadrangle

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Application # : FW-27727
Stream : St. Joseph River
Applicant : Marjorie Berkheiser
2924 South Shore
Mishawaka, IN  46544

Description : Approximately 44’ of eroded east/west streambank will be stabilized with glacial stone to protect the bank from further erosion. The seawall will conform to the existing bank at the project limits. It will have a maximum height of 2.5’, a maximum streamward projection of 4’ beyond the existing bank. Details of the project are contained in information received electronically at the Division of Water on October 14, 2014 and in plans and information received at the Division of Water on

Location : 2924 South Shore Drive
near Mishawaka, Penn Township, St. Joseph County

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application # : FW-27729
Stream : Prairie Ditch
Applicant : Peru Community School Corporation
            Stanley Hall
            35 West 3rd Street
            Peru, IN  46970

Description : An athletic field complex will be developed along Prairie Ditch to provide additional football and soccer facilities to the youth of the Peru Community. The development will consist of two youth size football fields and two regulation size soccer fields with a walking trail. The cut and fill will take place over the entire property. The two football fields will be crowned down the middle of the fields with one percent cross slopes to both side lines. The 2 soccer fields will also be crowned in down the middle of the fields with 0.5 percent slopes both ways. Storm sewer is proposed to collect the runoff from the fields and direct them to the ditch via a pipe network. Details of the project are contained in information received electronically at the Division of Water on October 15, 2014 and in plans and information received at the Division of Water on

Location : Along the south bank of Prairie Ditch beginning approximately 690' east of North Broadway Street and continuing upstream for approximately 1,450' at Peru, Peru Township, Miami County
            Section 21, T 27N, R 4E

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application #: PL-22613
Lake: Crooked Lake
Applicant: Daniel and Angela Campbell
656 West Squawbuck Road
Columbia City, IN  46725

Description: An existing inlet channel will be moved to enter the lake at a new location. The existing inlet channel will be filled and the end will be finished with a glacial stone seawall. The new channel will have sides constructed from glacial stone and energy dissipators built from glacial stone cofferdams. A culvert will be placed at one section of the channel. A section of the existing steel and concrete seawall and glacial stone will be removed to allow for the new channel to access the lake. Details of the project are contained in information and plans received at the Division of Water on August 29, 2014, September 12, 2014 and October 8, 2014.

Location: 261 East Morschès Road
