The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of $0.10 per 8 1/2" X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.
Application #: FW-27732

Stream: Little Sugar Creek

Applicant: Western Boone School Corporation
Judi Hendrix
1201 North State Road 75
Thorntown, IN 46071

Description: An approximately 36' wide by 132' long ford will be constructed. The ford will have approaches built from #2 stone and the streambed will consist of riprap. Details of the project are contained in information and plans received at the Division of Water on October 17, 2014, November 19, 2014 and November 21, 2014.

Location: Approximately 1,744' north and 1,640' east of the State Road 32 and State Road 75 crossing near Dover, Jefferson Township, Boone County
Section 26, T 19N, R 2W, Hazelrigg Quadrangle
Quad Code: 4008615
UTM Coordinates: Downstream 4434381 North, 532935 East

Statute/Rule: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Application #: FW-27741

Stream: St. Joseph River

Applicant: James Kelly
3345 Greenleaf Boulevard
Elkhart, IN 46514

Description: An existing concrete seawall will be refaced with glacial stone along 130' of the applicant’s frontage. The proposed glacial stone seawall will have a maximum height of 4' and will have a maximum streamward projection of 3'. Details of the project are contained in information and plans received at the Division of Water on October 28, 2014.

Location: 3345 Greenleaf Boulevard; along the right (north) bank, approximately 12,500 downstream of the County Road 17 stream crossing near Elkhart, Osolo Township, Elkhart County
Section 35, T 38N, R 5E, Elkhart Quadrangle
Quad Code: 4108568
UTM Coordinates: Downstream 4616715 North, 589323 East

Statute/Rule: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
### Application # : FW-27745

**Stream**: West Fork White River

**Applicant**: Gary V Greenlee  
4024 South Burlington Drive  
Muncie, IN  47302-8300

**Description**: Two levees were constructed approximately 129' long and 167' long along the southwest bank of the West Fork White River. The crest of both levees are located at an elevation of approximately 954.6', NAVD. The 5' wide crests will be covered with vegetation. Details of the project are contained in information and plans received at the Division of Water on November 3, 2014.

**Location**: 4024 South Burlington Drive  
near Muncie, Center Township, Delaware County  
Section 25, T 20N, R 10E, Muncie East Quadrangle  
Quad Code: 4008523  
UTM Coordinates: Downstream 4446446 North, 642071 East

**Statute/Rule**: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

### Application # : FW-27755

**Stream**: Jones Ditch

**Applicant**: Chatham Hills LLP  
Steve Henke  
20298 Tomlinson Road  
Westfield, IN  46074

**Description**: A new 18 hole golf course will be constructed and include the construction of a 42' wooden bridge. The low structure elevation will be at the top of bank and no work in channel will be required. Construction of the golf course will include regrading natural contours for greens, tees, traps, fairways, and the excavation of 4 ponds. Details of the project are contained in information and plans received at the Division of Water on November 10, 2014.

**Location**: Along the left bank of Isaac Jones Regulated Drain, from the intersection of Oak Ridge Road and 206th Street to US-31  
near Westfield, Washington Township, Hamilton County  
Section 24, T 19N, R 3E, Westfield Quadrangle  
Quad Code: 4008612  
UTM Coordinates: Downstream 4437708 North, 573552 East

**Statute/Rule**: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
### Application #
- FW-27758

### Stream
- Thompson Slough

### Applicant
- Department of Natural Resources
  Jamie Smyth
  Division of Fish and Wildlife
  402 West Washington Street, Room W273
  Indianapolis, IN 46204

### Description
An existing 24" diameter by 6' long CMP will be replaced with a low water crossing. The new crossing will be 82' long by 20' wide by 8" thick with a bottom elevation of 563.3' NGVD29. The east and west approaches 67' and 77' long respectively, will be excavated to a 10:1 slope and will be covered with 6" of gravel. Details of the project are contained in information and plans received at the Division of Water on November 12, 2014, November 18, 2014 and November 19, 2014.

### Location
- Cypress Lake Public Fishing Site
  near Seymour, Jackson County

  Quad Code: 3908518
  UTM Coordinates: Downstream 4319451 North, 596194 East

### Statute/Rule
- Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
**Application #**: FW-27759

**Stream**: Graham McCulloch Ditch Number One

**Applicant**: City of Fort Wayne
Andrew G Schipper, PE
200 East Berry Street, Suite 250
Fort Wayne, IN 46802

**Description**: A water main installation under Graham-McCulloch Ditch Number One will be made by jack and bore with the 16" water main installed in a casing under the Norfolk and Southern Railway and the Graham-McCulloch Number One. The average open cut excavation trench will be approximately 3' wide and 6' deep. Stream banks or channel bottoms will not be disturbed. Details of the project are contained in information and plans received at the Division of Water on November 14, 2014.

**Location**: Near the Ellison Road Crossing
near Fort Wayne, Aboite Township, Allen County
Section 26, T 30N, R 11E, Arcola Quadrangle
Quad Code: 4108513
UTM Coordinates: Downstream 4542578 North, 646680 East

**Statute/Rule**: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application #  :  FW-27760

Stream       :  Robinson Ditch

Applicant    :  City of Fort Wayne
Andrew G Schipper, PE
200 East Berry Street, Suite 250
Fort Wayne, IN  46802-2731

Description  :  A water 16" main installation under Robinson Ditch will be made by directional drilling. The channel will not be open cut. The average depth of the water main will be  6' deep. Stream banks or channel bottoms will not be disturbed. Details of the project are contained in information and plans received at the Division of Water on November 14, 2014.

Location     :  Near the Branstrator Road crossing
near Fort Wayne, Aboite Township, Allen County
Section 35, T 30N, R 11E, Arcola Quadrangle
Quad Code: 4108513
UTM Coordinates:  Downstream 4541194 North, 646503 East

Statute/Rule :  Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application #      : FW-27763
Stream             : Deer Creek
Applicant          : City of Delphi
                   Honorable Randy J Strasser
                   201 South Union Street
                   Delphi, IN  46923

Description        : This project involves the construction of an eight-foot wide multi-use trail which will be approximately 1,900 feet in length and connect to existing sidewalks. The project will include adding fill to widen the trail and tie the side slopes back into the existing ground at a 3:1 or 2:1 side slope, as required. Details of the project are contained in information received electronically at the Division of Water on November 20, 2014 and in plans and information received at the Division of Water on October 31, 2014, November 21, 2014 and November 24, 2014.

Location           : Along the right (north) stream bank, beginning at the South Hamilton Street stream crossing and continuing upstream approximately 800’, then turning northeast running along the eastern side of Wabash Street and lastly turning southeast running along the southern side of Water Street ending at US 421 at Delphi, Deer Creek Township, Carroll County
                   Section 3, T 25N, R 2W, Delphi Quadrangle
                   Quad Code: 4008656
                   UTM Coordinates:  Downstream 4492308 North, 527395 East

Statute/Rule       : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
The Beaver Creek Lake Dam is a high hazard dam. The main components of the construction will include modifying the existing labyrinth spillway to increase the water surface elevation and increasing the height of the dam embankment. The existing concrete labyrinth spillway will be raised 0.91 feet by saw cutting along both sides of the weir and demolishing the top 9 inches of the concrete and reconstructing the upper portion from elevation 497.51 feet (NAVD88) to elevation 498.52 feet (NAVD88). As a result of raising the spillway crest, the center portion of the dam embankment will also need to be raised 0.6 feet, which will require adding fill to approximately 800 feet of the dam embankment starting approximately 250 feet from the east spillway sidewall. This will prevent the overtopping of the embankment prior to passing the runoff from the 100% Probable Maximum Flood (PMF). In order to maintain the existing crest width of 12 feet and the existing bench width downstream, the slope will need to be modified from the existing 3:1 slope to a slightly steeper slope of approximately 2.9:1. The new minimum crest elevation of the dam embankment will be 506.60 feet (NAVD88). The disturbed areas will be permanently seeded and monitored until established. Details of the project are contained in information and plans received at the Division of Water on November 20, 2014.
