The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of $0.10 per 8 1/2" X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.
Description: Improvements to an existing wastewater treatment plant is proposed. The following work is proposed within the floodway of the Wabash River: a proposed driveway and minor excavating and grading. Details of the project are contained in information and plans received at the Division of Water on November 21, 2014 and December 16, 2014.

Location: Along the right (north) bank beginning approximately 600' upstream of the US 24 stream crossing, extending approximately 750' upstream. Near Logansport, Eel Township, Cass County Barron Reserve, Clymers Quadrangle Quad Code: 4008664 UTM Coordinates: Downstream 4510941 North, 551582 East

Statute/Rule: Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
### Application #
- FW-27778

### Stream
- Pleasant Run Creek

### Applicant
- Indiana Department of Transportation
- Nathan Saxe
  - 100 North Senate Avenue, Room N642
  - Indianapolis, IN 46204

### Description
- INDOT will construct 313' of 84" x 64" CMP Arch carrying I-65 over Pleasant Run Creek. An HDPE Slip liner is proposed for this structure. Additionally, the project will add 313' of 36" CMP adjacent to the existing CMP to add additional capacity during storm events. Riprap will be placed from the edge of the pipes to a point approximately 25' upstream and 15' downstream. The profile of I-65 will be raised by 0.9'. Also, a temporary pump around or diversion pipe are proposed to complete construction. Details of the project are contained in information and plans received at the Division of Water on December 4, 2014.

### Location
- The overall project extends through Section 9, 15, 16, 22, 27 and 34 of Township 14 North, Range 4 East in Perry and Franklin Townships, Marion County and Pleasant, Clark, and Needham Townships, Johnson County. The crossing location is within Indianapolis, approximately 0.80 mile north of Greenwood. The project crosses Pleasant Run Creek. The limits of the project extends 30 feet downstream from the culvert near Indianapolis, Franklin Township, Marion County
  - Section 22, T 14N, R 4E, Beech Grove Quadrangle
  - Quad Code: 3908661
  - UTM Coordinates: Downstream 4389305 North, 579423 East

### Statute/Rule
- Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10
Application # : FW-27785
Stream : Bryant Creek
Applicant : Indiana Department of Transportation
            Nathan Saxe
            100 North Senate Avenue, Room N642
            Indianapolis, IN  46204

Description : Approximately 2,380' of stream overbank will be excavated a maximum of 3'
below existing grade to construct 25' to 50' wide bankfull benches. The bankfull
benches will be covered with coconut fiber matting secured with native live
stakes, seeded, and planted with native trees and shrubs. Details of the project
are contained in information and plans received at the Division of Water on
December 8, 2014.

            Crossville, IL  62827

Description : A 40' by 80' commercial steel building is proposed. The building will be
constructed on an existing earth mound and will be used for storage. The
building will be set back 400' from the stream bank and will have a finished
elevation of 388.4', NAVD. Specific project information will be added to the
description as the application is further reviewed. Details of the project are
contained in information and plans received at the Division of Water on December
8, 2014.

Lake: Syracuse Lake

Applicant: Dennis W Mikel
59050 County Road 21
Goshen, IN 46528

Todd P Mikel
2310 Toledo Road
Elkhart, IN 46515-1707

Description: An existing 70' wide, 250' long channel off Syracuse Lake will be restored to its original condition to make navigable. Approximately 5' of accumulated muck and debris will be removed from the channel bed by dredging to a depth of 10' below the legal/average normal level of the lake at the center of the channel and sloping uniformly to a depth of 3' at the shoreline. The excavated material will be transported to an upland containment area for dewatering and disposal. Water from the containment area will not be allowed to return to the lake. Details of the project are contained in information received electronically at the Division of Water on December 12, 2014 and in plans and information received at the Division of Water on

Location: 13119 Eastshore Drive approximately 1200' south and 200' west of the intersection of Northshore Drive and Eastshore Drive near Syracuse, Turkey Creek Township, Kosciusko County Section 4, T 34N, R 7E

Statute/Rule: Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11
Application # : PL-22656
Lake : Beaver Dam Lake
Applicant : Daniel MacInnis
9347 South Julia Street
Claypool, IN  46510

Description : An existing concrete seawall will be refaced across a portion of the 60' frontage of the applicant on Beaver Dam Lake to prevent deterioration. The refacing will consist of reinforced concrete which will be tied to the existing wall with ½" re-rod. The refacing will have a maximum thickness of 12" and will be sloped on the lakeward side. A 24" wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. Details of the project are contained in information received electronically at the Division of Water on December 15, 2014 and in plans and information received at the Division of Water on

Location : 9347 South Julia Street: north side of the lake near Claypool, Seward Township, Kosciusko County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11
