Dr. Katie Jenner, Secretary of Education

EXAMPLE: Evaluation Tool for High-Quality Curricular Materials for Early Learning (Infant to Age Five)

The purpose of this evaluation tool is for reviewer(s) to consider each component independently in relationship to the overall rating defined. Each criteria (i.e., row) is defined as a yes/no determination. Criteria defined as a non-negotiable (Sections I, II, and III) must be indicated as “Yes” for further evaluation in Section IV (optional criteria). The review considers three specific process steps: 1) independent review by a credible third party research entity, 2) independent review by each educator reviewer, and 3) consensus by the Indiana Department of Education’s (IDOE’s) hosted review committee. Process steps and documentation provided by the curricular organization will inform the overall determination defined in step 3.

The reviewer(s) must complete the process for each row independently based on the evidence provided by the curricular organization. Anecdotes or research beyond what the organization explicitly provided will not inform ratings.

1. Review the **required** criteria in Sections I, II, and III and **optional** criteria in Section IV.
 - If there is a “Yes” for all required criteria (i.e., rows), materials receive an overall “Yes” for that section.
 - If there is a “No” for any of the required criteria (i.e., rows), materials receive an overall “No” for that section.
2. Materials must meet all required criteria in Sections I, II, and III. Criteria in Section IV are optional, but may serve as a point of differentiation across providers that successfully navigate the review process.
3. A curricular organization must receive an overall “Yes” in Sections I, II, and III to be deemed high-quality. Details about each organization’s rating completed by the independent third party research entity must be submitted with the corresponding documentation for review.

Submissions are evaluated on the extent to which they meet all of the criteria noted below. Deficient submissions will be allowed one additional submission round to provide additional evidence or clarification for reviewers. **The term “materials” is used throughout the rubric to mean “instructional materials” utilized by the educator or provided to students unless otherwise noted.**

Section I: Early Learning Non-Negotiable Criteria for High-Quality Curricular Materials: Instruction

Evidence must meet all criteria noted in Section I.
