All Apprentice As approved by U.S. Dept. Of Labor--Bureau of Apprenticeship & Training

Other hourly Compensations may consist of Employee Fringe Benefits purchased by the employer such as Health Insurance, Pension Benefits, Apprenticeship Training and ETC. Or the equivalent amount may be employee's hourly wage.

Stipulation as to the employment of apprentices: Apprentices will be permitted to work at less than the pre-determined rate for the classification of work they perform when they are employed pursuant to and individually registered in a BONA-FIDE APPRENTICESHIP program registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training. Their wage rate will be their individual warranted percentage of the listed skilled classification prevailing wage rate. Apprentices shall be permitted to work only as the ratio to journeymen in the apprenticeship program Standards State.

Absence of wage determination for the class of Semi-Skilled and Un-Skilled workers in a particular classification is the result of the committee's determination that the prevailing practice in immediate locality is no to use Semi-Skilled or Un-Skilled workers in that classification on construction sites.

The attached Job Classification Document, Statewide classification and description for determining rates for building construction, completely describes each job Classification that is contained on this Scale. This Document is the only reference which is applicable to determining the job Classification on an individual worker and must be referred to when assigning a classification to a worker.
