The wage rates under the column "Total Hourly Wages Rate" as set forth by the committee are the minimum wage rates to be paid and shall not prevent a contractor from paying a higher wage rate.

C. CLASSES OF OCCUPATIONS/TRADES

It is the committee's determination that semi-skilled and unskilled workers within the county are apprentices who are individually registered in a bona fide apprenticeship program as certified by the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training.

With the exception of laborers, the wage determinations for the classes of semiskilled and unskilled workers within the skilled trades represent the apprentice's progress in the apprentice program for that skilled classification in this wage scale as provided in the relevant apprentice program standards.

Where the committee has marked "N/A" under the classes of semiskilled and unskilled, it is the committee's determination that the common practice in the county is not to use a semi-skilled or unskilled designation with regard to that classification.

D. APPRENTICES

Apprentices are individuals employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training.

With the exception of laborers, the utilization of workers in the classes of semiskilled and unskilled, who have not been properly registered as apprentices within the meaning of the Bureau of Apprenticeship and Training regulations and the contract stipulations, is contrary to this wage scale. Such unindentured workers shall be entitled to receive compensation at the skilled rate for that classification.

E. COMMON CONSTRUCTION WAGE AS A CONDITION OF THE CONTRACT

As required by Indiana Code 5-16-7-1(h), it shall be a condition of a contract awarded for the above cited project that the successful bidder and all subcontractors shall comply strictly with the determination made by this common construction wage committee.

F. VERIFICATION OF THE CONTRACTOR'S SCHEDULE OF WAGES

As required by Indiana Code 5-16-7-2, before any contractor or subcontractor performs any work on the above cited project, each contractor and/or subcontractor must file (with the above cited awarding agency) a schedule of the wages showing the wages that it intends to pay to workers on the project.

Engineering Department Projects

AAA Way & Merchants Square West Drive Intersection Improvements $250,000

#20061635

- This project involves adjustments to intersection alignment, and the addition of pedestrian crossings. Includes design, construction and inspection of this intersection improvement.

3rd Ave. SW from City Center Drive to Main Street $1,250,000

20061636

- This 0.5 miles project from City Center Drive to Main Street will include boulevard style roadway improvements consisting of a curbed asphalt roadway, storm sewers and bituminous recreational paths or sidewalks. Improvements will also include the construction of a roundabout at Main Street.

Shelborne Realignment at 116th Street $1,000,000

20061637

- This project involves realigning Shelborne Road north of 116th Street such that it aligns with Shelborne Road south of 116th Street. The segment of roadway will be a 2-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths and will include a roundabout at the intersection of 116th Street and the existing Shelborne Road alignment south of 116th Street. Includes design, right-of-way acquisition, construction and inspection of this intersection improvement.

2006 Sidewalk Improvements $300,000

20061638

- The project will involve the construction of sidewalk at the following locations:
  - 136th Street from Carey Road to Tulip Poplar Crest
  - Pedestrian Bridge across U.G. Mitchner Drain
  - Pedestrian Bridge across Emily Vestal Ditch, 131st Street

106th Street Culvert Replacement $150,000

20061639

- This project involves the replacement of the existing culverts under 106th Street, just east of White Oak Drive. The culverts are in a state of disrepair and are acting to undermine to roadbed material, causing the roadway to sink.

Towne Rd. from 126th Street to 131st Street $1,150,000

20061640

- This project is approximately 0.7 miles in length from just south of 126th Street to just north of 131st Street. There will be roundabouts at 126th Street, Glebe St., and 131st Street. It will be a 4-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths. .

131st Street from Ditch Rd. to Spring Mill Rd. $2,250,000
