CONSTRUCTION MEMORANDUM

District Construction Directors

26-04

District Technical Services Directors

District Area Engineers, Project Engineers/Supervisors

FROM: Gregory G. Pankow, P.E. 
Chief Engineer of Construction

SUBJECT: E-Ticketing

SUPERSEDES: Construction Memorandum 22-03

The Department has decided to discontinue licensing with HaulHub for the EDOT e-ticketing portal, effective 6/30/26. Access to that portal may become permanently unavailable after that date. Field inspection personnel are instructed to download all necessary contract ticket data prior to that date. Also, please notify your Contractors as appropriate.

As per Standard Specification 106.01(b)2 e-ticketing Contractors and Suppliers can still request Department approval to use their own e-ticketing system provided it meets the requirements listed. A common shortcoming with these systems is that most don't meet the requirement to provide Department personnel the ability to acknowledge the delivery of material in real-time. Going forward, this feature will only be required for tickets that also serve as the basis for payment, in other words for materials paid by quantity delivered and not as measured on site. The specification will be revised accordingly in the future.

Any questions should be directed to your assigned Construction Management Field Engineer.
