Michael B. Cline, Commissioner

October 24, 2011

To: All contractors prequalified in work classification 0120, Drilled Foundations, who are not on INDOT's Geotechnical Services' list of approved drilled foundation contractors

From: Karen B, Macdonald, PE *KBM*
Prequalification Engineer

Re: Geotechnical Services' approved list of Drilled Foundation Contractors

The INDOT Geotechnical Services Section has developed an approved list of drilled foundation contractors. In the past, the Prequalification Section had not been conferring with Geotechnical Services prior to approving contractors for work classification 0120, Drilled Foundations. Now that there is an approved list, we will not approve a contractor for work classification 0120, unless they are first approved by Geotechnical Services.

Your company is not included in Geotechnical Services' approved list. In order to remain prequalified in work classification 0120, your company must become approved by Geotechnical Services by December 15, 2011. Failure to comply within this time period will result in the loss of your prequalification in work classification 0120. A new Certificate of Qualification will then be issued.

It is our understanding that the approval process is relatively quick. Please contact Malek Smadi, Ph.D., P.E., Geotechnical Services at msmadi@indot.in.gov or (317) 610-7251, Ext. 226 for information regarding the geotechnical approval process.

Once your company is approved, please contact Frederic Bartlett, Contractor Prequalification Analyst, at fbartlett@indot.in.gov or (317) 232-8364.
