October 24, 2011

To: All contractors not prequalified in work classification 0120, Drilled Foundations, who are on INDOT's Geotechnical Services' list of approved drilled foundation contractors

From: Karen B. Macdonald, PE 
Prequalification Engineer

Re: Geotechnical Services' approved list of Drilled Foundation Contractors

The INDOT Geotechnical Services Section has developed an approved list of drilled foundation contractors. Your company appears on Geotechnical Services' approved list; however, you are not currently prequalified with INDOT or do not have work classification 0120, Drilled Foundations. Not being prequalified carries certain limitations on your capacity if retained by a successful bidder as a subcontractor. The limitations are:

- The maximum amount of a subcontract is limited to not more than \$300,000, if the subcontractor is not prequalified.
- The maximum amount of unearned work under contract is limited to total of \$300,000 on any given date with any owner, contractor, or other party, if the subcontractor is not prequalified.
- You will not be allowed to bid on any contracts let through INDOT unless your company is prequalified.

If you should decide to become prequalified, please visit INDOT's web site at www.in.gov/indot and select Doing Business with INDOT, Contractors/Construction, Contractors Prequalification. For questions or clarification please contact Frederic Bartlett, Contractor Prequalification Analyst, at fbartlett@indot.in.gov or (317)232-8364.
