

REVISIONS

The GIFE will be revised as necessary to keep information current with Department standards, policies and procedures.

When a revision is issued, the new or revised information will be indicated by highlighting and the revision date will be noted next to the title of the subsection revised. The revision date in the upper right hand corner of each section will be changed to indicate the latest revision date of any subsection within the section. If an entire section or subsection is added, only the section or subsection title will be highlighted, otherwise only the new or revised text will be highlighted. Highlighting will be removed from the revised portions once a subsequent GIFE revision is issued.
