Bridge Inspection Memorandum No. 16-04

TO: All Inspection Personnel, and Consultants

FROM: /s/Merril Dougherty
Merril Dougherty
Bridge Inspection Manager
Bridge Division

DATE: April 18, 2016

SUBJECT: Bridge Inspection Test Bridge

In accordance with the INDOT Bridge Inspection Manual, Part 2, Chapter 3, Section 3.2, the Bridge Inspection Unit has selected a control bridge to be inspected by the bridge inspectors. The date selected for the control bridge is May 13th, 2016. The time for the inspectors to review the test bridge is between 10:00 A.M and 2:00 P.M.

The selected bridge is in Mooresville Indiana. The meeting location is south of the intersection of SR 67 and SR 144. A map with GPS coordinates will be attached with this memo with the meeting location.

All bridge inspectors are encouraged to attend this exercise. Team leaders that do not attend the exercise may be asked to submit quality control reviews and may be subject to a quality assurance review.

All inspectors performing in the exercise will be given all necessary information at the meeting location. The inspectors will need to know their inspector number and should have access to a recording and coding guide. The INDOT Area Engineers will be at the bridge and will answer questions regarding the coding guide and INDOT policy.

This is intended as a learning experience. All necessary information will be provided. The INDOT Bridge Inspection Unit will have several inspectors present to provide assistance and to answer any questions during the exercise.
