

Note: Isolux diagram of horizontal lux on pavement surfaces for a luminaire providing a medium semi-cutoff, Type III light distribution (per 1000 initial lamp lumens). The isolux multiply data are based on a luminaire mounting height of 100 ft. For other mounting heights, the values of isolux shown by the factors below.

<i>Mounting Height (ft):</i>	60	70	80	90	100	110	120
<i>Factor:</i>	2.78	2.04	1.56	1.23	1.00	0.83	0.69
