GENERAL NOTES

- 1. No-passing zone signs are required if ADT is greater than 750 or posted speed limit is 50 mph or greater.
- 2. Signs of larger sizes than implied by sign designations may be used if desired.
- 3. A bridge or culvert, with a clear roadway of 18 ft to 22 ft inclusive, with a clear roadway of less than that of the approach pavement, or where the handrail or curb is less than 2 ft from the edge of pavement will be considered a narrow bridge. The W5-2 sign shall be installed for this condition.
- 4. A bridge or culvert with less than 18 ft between opposite vertical surfaces will be considered a one lane bridge. The W5-3 sign shall be installed for this condition.
- 5. D-3 delineators will be required if ADT is greater than 500 at a narrow bridge. D-3 delineatiors will be required if ADT is greater than 250 at a one lane bridge.
- 6. The minimum length of the no-passing zone at a narrow bridge shall be the distance APM B. If the 85th percentile speed is not known, add 5 mph to the posted speed limit and use the appropriate distance APM B.
- 7. The minimum length of the no-passing zone at a one lane bridge shall be the distance APM A. If the 85th percentile speed is not known, add 5 mph to the posted speed limit and use the appropriate distance APM A.
- 8. Where guardrail is installed, delineators shall be installed at the back side of the guardrail. Where the guardrail run ends and additional delineators are required, they shall be installed a minimum of 2 ft from the edge of the shoulder.
- 9. Type 3 object markers may not be required at all four corners of a culvert. Two type 3 object markers shall be installed back-to-back on a single post at the incoming side of the culvert. If delineators may be placed such that there is a 25 ft diagonal distance between the delineators on the opposite side of the roadway, D-3 delineator spacing may be increased to 100 ft.
