**DESIGN MEMORANDUM No. 03-11  
POLICY CHANGE**

**TO:** All Design, Operations, District Personnel, and Consultants

**FROM:** /s/ Anthony L. Uremovich  
Anthony L. Uremovich  
Acting Design Policy Engineer  
Contracts and Construction Division

**SUBJECT:** Rest Area Drinking Water and Wastewater Treatment Systems

**EFFECTIVE:** Immediately

Where permanent facilities are provided in a rest area, an adequate drinking-water supply and a wastewater disposal system will be required. These are required to bring the facilities into accordance with federal, Indiana Administrative Code, and Indiana Department of Environmental Management (IDEM) regulations, and local ordinances. Where practical, connection to existing drinking-water supplies and wastewater treatment facilities is the most desirable option.

Specific requirements for such water treatment systems are described in Design Memorandum No. 03-11 Technical Advisory.
