

205-R-783 STORMWATER MANAGEMENT

(Adopted 11-17-23)

The Standard Specifications are revised as follows:

SECTION 205, BEGIN LINE 241, DELETE AS FOLLOWS:

(g) Inspections

Inspection shall be required on all work areas associated a CSGP. This shall include drainage areas within contract limits leading to BMPs, areas of land-disturbance, and areas with impacts or potential impacts to protected resources. For contracts that have multiple work sites, inspections shall only be required for areas operating under a CSGP ~~or a waterway permit~~.
