Due to a tie for second on RFP 06-01 Item 1 (I-69), the scoring team met on April 10 to order our selections. United Consulting was unanimously voted to be placed second for primarily two reasons. They have a greater capability to perform R/W services within their own firm which would allow them more control over this task. This project will be driven by R/W acquisition. They also have a great deal of experience on the "front end" design of a design/build project.
