Re: Reduction In-Force Notification

Lockheed Martin Corporation, acting by and through its Global Training & Logistics business unit regrets that our workforce must be reduced as a result of the reduction of government contract work on the Non-Guard Services program. We anticipate that employment separations in connection with our proposed plans are going to take place on or about September 30, 2011.

A list of facilities, job titles, the number of employees currently holding affected positions, and the dates of termination that are presently known accompany this letter as Attachment 1. If any of the job titles at the listed facilities are represented by a union, you will also find attached a letter addressed to the respective union officials. This planned action is expected to be permanent. Please note that all positions at the above-mentioned facilities will be eliminated. Bumping rights do not exist.

This notification is based on the best information currently available. However, various factors may still affect the employment separations. We will inform you of any significant changes in these plans as additional information becomes available.

This letter is intended to fulfill any requirements that may be imposed under the Federal Worker Adjustment and Retraining Notification Act, 29 U.S.C. §2101 *et seq.* By providing this information, Lockheed Martin Corporation does not concede that this law applies or that notice is otherwise required.

Should you have any questions regarding this announcement, please contact Julie Ton-Bejer, Human Resources Business Partner, (407) 306-1502, or via email at julie.ton-bejer@lmco.com. Thank you.
