

Post Work for Administrator 200- Beyond Crunching Numbers: Designing and Implementing a Data- Driven Program

Please review your Strategic Plan from Admin 100 using the data analysis tools and strategies from Admin 200.

- If you find that your initial Strategic Plan target area aligns with the highest priority found in your data analysis, please complete the post-work worksheet to integrate data analysis into your plan.
- If you found that the results of your data analysis do not align with your initial target area, please work through the Strategic Planning worksheet from 100 to develop an improvement plan to target the area that your data analysis revealed as a priority. In addition, complete the post-work from 200 to help think through the integration of data analysis into the new strategic plan.
