Section 1: General Information and Purpose of this Proposal

Part A. - General Information

The Western Indiana Workforce Investment Board, Inc. is a 501(c)3 corporation. The Workforce Investment Act (WIA) of 1998 (Public law 105-220) authorizes and charges local workforce investment boards with policy development, strategic planning, and financial stewardship of workforce investment and development of the authorized Workforce Service Area (WSA) that it serves. The Western Indiana Workforce Investment Board, Inc. serves Indiana WSA 7, which is composed of Clay, Parke, Putnam, Sullivan, Vermillion and Vigo counties in Western Indiana. The Western Indiana Workforce Investment Board, Inc. has been designated by County Local Elected Officials to act as the fiscal agent for the WIA programs in WSA 7.

WSA 7 has a workforce of 107,490. It is unique in the fact that its residents have numerous educational opportunities available to them. Among the region's assets are five outstanding universities and colleges; they include: Rose-Hulman Institute of Technology, Indiana State University, DePauw University, St. Mary-of-the-Woods College and Ivy Tech Community College. The region is also home to outstanding school corporations. The WIB has strong partnerships with the leaders of these institutions and work closely with them in the development and implementation of effective education and training initiatives.

Another strength of WSA 7 is its diverse economy. With such diversity, the region is generally shielded from the devastating effects of an economic downturn in a single businesses sector. After careful analysis of regional labor market information and numerous discussions with business leaders from throughout the region, the Western Indiana Workforce Investment Board has made the following four business sectors priorities of the board's efforts and program implementation: 1) healthcare, 2) manufacturing and logistics, 3) construction and extraction, and 4) business, marketing, and information technology.

Along with unique strengths, WSA 7 faces special challenges that the WIB is actively working to address. First, approximately 17% of the region's population does not have a high school degree or GED. WIB members and staff have long had strong partnerships with partners in education and service agencies so the Adult Basic Education (ABE) initiative recently begun by the Indiana Department of Workforce Development (DWD) has served to strengthen and further formalize these unique bonds. Approximately ten years ago, nearly 20% of the population had no GED or high school diploma, so the area is hopeful that these numbers will continue to decline. Along with regularly scheduled WorkOne / ABE Leadership Team and consortium meetings, the One-Stop partnerships serve as a conduit to address the unique needs related to this challenge.

WSA 7 has for the last decade had an average unemployment rate higher than the state average. The region has also consistently had a wage rate lower than the state average. The WIB looks to aggressively address these challenges both in the delivery of WIA services and as a convener of business leaders. Members of the Western Indiana Workforce Investment Board are strong supporters of integration; therefore the delivery of services occurs in a seamless and holistic manner. WorkOne staff is cross-trained and ready to address customer needs based on their unique employment goals. The region has long embraced the concept of career pathways as a clear and logical process to keep customers focused and motivated as they move towards success; whether they have embarked on the job to job track or the job to training to job track.

The Western Indiana Workforce Investment Board, Inc. is seeking proposals for the provision of Title 1 Workforce Investment Act services in WSA 7. These services will be delivered in accordance with “Indiana’s Two Year Strategic Plan” and the WSA 7 Local Plan. The state plan outlines the Indiana Department of Workforce Development’s vision for the delivery of Workforce Investment Act, Veteran, Unemployment Insurance Trade Adjustment Act (TAA), Profiling, and Wagner Peyser services, and can be found at <http://www.in.gov/dwd/files//2005-2011StatePlanModification-Year6-Dec2010mod.pdf>. The WSA 7 Local Plan is under review by DWD at the time of the release of the RFP; however the draft plan is available for review at www.workonewest.com.

Region 7 presently has one comprehensive WorkOne site located in Vigo County and five express sites in each of the remaining counties. The express sites are staffed by the service provider. The service delivery model is demand driven. It requires, as applicable, dual enrollment of all job seeking customers into both Wagner Peyser and the WIA program. The delivery model also encompasses Trade Adjustment Act, Unemployment Insurance and Veterans’ Services customers.

In the integrated service delivery model, all customer services are delivered by functional teams that are comprised of individuals from a variety of funding streams. Team activities and work loads are coordinated by a functional supervisor. The functional teams that deliver these services are the Welcome Team, the Skills Team and the Business Services Team. All staff performs their job tasks in a specific functional area alongside other staff who have been assigned to similar functions – from both the state and WIA service provider organization. In this environment, neither job titles nor organizational boundaries are used to differentiate staff from one another.

The selected Service Provider will work closely with the Executive Staff of The Western Indiana Workforce Investment Board in order to ensure fruition of the Board’s vision of seamless, holistic service delivery. The integration model is a system which is continually evolving as we refine both the methods and practices in order to achieve optimum performance. A great deal of value is placed on

innovation and initiative in the new system. It is imperative that the system be able to respond quickly to shifts in employer and skill demands, while providing services to a large number of job seekers effectively and efficiently.

Part B. – Purpose of this Solicitation

- The goal of this solicitation is to receive responses from qualified and experienced employment and training service providers that are effective and efficient and able to meet the demands of the workforce delivery system of WSA 7; more specifically to exceed the expectations of the board and local businesses in these matters, and to fulfill Indiana’s vision that every job seeker has the right to know their skills, to improve their skills, and to get the best job possible with their skills. The successful bidder will be issued a contract for a two year period from July 1, 2011 through June 30, 2013. The Western Indiana Workforce Investment Board may, based on performance, renew the contract without additional solicitation for one additional program year (July 1, 2013 to June 30, 2014). Terms and conditions of this contract are subject to the terms and conditions of the contract of the Western Indiana Workforce Investment Board with the State of Indiana. The form of this contract will be cost-reimbursement.
- The funding for these services will come from the Federal Workforce Investment Act, Title I funds awarded to the service area through the Indiana Department of Workforce Development. It is possible that funding levels made change somewhat , with this in mind, recent WSA 7 allocations and the service provider contract suggest the following budgets could be utilized for planning purposes:
 - WIA Adult Planning Budget: \$463,751.00*
 - WIA Dislocated Worker Planning Budget: \$660,683.00*

*WIWIB holds the WorkOne office leases. The WIA portion of the rent and most utility costs are included the WIWIB budget.

The Western Indiana Workforce Investment Board does reserve the right to adjust this provision as needed. The Board anticipates seeking additional funds as opportunities arise.

The Service Provider is responsible for performing tasks for the delivery of customer services under the integrated customer service system in accordance with federal, state legislation and regulation, state policy, the Indiana Strategic State Plan and Local Plan. Programs include, but are not limited to those listed above, and may include other programs required by DWD or the Western Indiana Workforce Investment Board, such as Rapid Response, National Emergency Grants (NEG), and ABE partner activities.

The Western Indiana Workforce Investment Board is responsible for meeting or exceeding State required Performance Measures, referred to as Common Measures. The Title 1 Service Provider must commit to a constant improvement in performance numbers and outcome based results. Specific performance requirements are provided to contractors annually in June each year.

The initial year Performance Requirements* will include:

Adult Entered Employment Rate = 67%

Dislocated Worker Entered Employment Rate = 72%

Adult 6 mo. Retention Rate = 83%

Dislocated Worker Retention Rate = 90%

Adult Replacement Wage Rate = Average 6 mo. earnings \$13,900

Dislocated Worker Wage Rate = Average 6 mo. earnings \$16,500

*These may change for program year 2011-2012. WIWIB will inform service providers of any changes once they have been finalized by the state.

Services and activities must observe the following restrictions and requirements when considering program design:

1. Program training, services, and/or activities cannot begin prior to July 1, 2011, however, transition activities are expected to begin as soon as contract negotiations are concluded by the Western Indiana Workforce Investment Board and successful proposer.

6. Service provider staff shall abide by all program policies and procedures established by the Western Indiana Workforce Investment Board.
7. The circumstance is that the current Title 1 service provider will not be awarded a contract to continue at the end of the current program year,

therefore swift and immediate transition activities will be necessary to avoid gaps in services to customers July 1, 2011 or beyond. At a minimum, the selected Title I Service Provider will be required to interview incumbent Title I service staff (from a single provider) for similar positions. Hiring is not required unless the Contractor is satisfied that the incumbent workers meet the threshold needs for the position under the proposed service design.

8. Sufficient staff must be provided to meet the needs of the Western Indiana Workforce Investment Board and Title 1 service requirements. The selected Title 1 Service Provider must be flexible with staffing and have the ability to shift staff responsibilities/operations/hours in order to ensure effective coverage. In addition, the successful proposer must have the ability and capacity to provide activities to individuals speaking any language other than English.
 9. The Service Provider is responsible for all inventory items in their care, and must ensure that all inventory items, along with any other computers, equipment, and furniture in their care are in good repair and in working order.
 10. Confidentiality of customer information must be maintained to meet the requirements of HIPAA regulations and specific procedures required by law. All customer information must be maintained in secured, locked file cabinets at all times with limited staff accessibility.

The selected organization should demonstrate the following characteristics; competent management with vision, customer service oriented staff, cooperative management and staff, willingness to integrate resources with other

organizations, flexibility and ability to adapt to change, an understanding of the delivery of WIA services, data Integrity, and creativity.
