WARN NOTICE  
RECEIVED

APR 16 2009

DISLOCATED WORKER UNIT

RE: Facility Shutdown and WARN Notification

This notice is being provided to you pursuant to the Worker Adjustment and Retraining Notification Act of 1988, which requires employers to give official notice of a plant shut down.

IH Lumber, LLC has actively and in good faith sought new capital to allow its facilities to continue operations through this time of lumber market uncertainty. Unfortunately, as of April 6, 2009 the banking institution the company has been working with decided not to continue funding these operations as on-going entities and has taken control of all assets associated with IH Lumber. This unexpected decision on the bank's part has placed IH Lumber in the difficult position of immediately shutting down all operations.

Affected operations consist of the following:

- Chandler, IN Administrative Offices
- Chandler, IN Sawmill Operations
- Gordonsville, TN Sawmill Operations
- Lafayette, TN Kiln Drying Operations

For further information, please contact the HR Department at the address listed above.
