Mr. Smith gave his case manager his employment information. He understands he will be contacted for follow up and if he is experiencing any difficulties with employment, he is to contact his case manager for additional assistance.

Mr. Smith called his case manager and stated that he is experiencing difficulty in his new job. He likes the healthcare field, but is used to working more independently as an EMT. His case manager suggests Mr. Smith attend the Health Care Job Club to talk about how to manage the change.

The case manager received a 60 day alert since the last service. Case Manager "acknowledges" the alert since the desire is for Mr. Smith to soft exit in another 30 days.

The case manager contacts Mr. Smith to determine if he is still working and if he has adjusted better to the new work environment.

The case manager has received an alert that Mr. Smith has been exited from WIA.
