## Common Types of Domestic Employment

### **Applicable to Domestic Service in a Private Home**

**Service of a household** nature performed by an individual in or about the private home of the person whom she/he is employed is Domestic Employment. Services most commonly performed are in-house care. However, any other household employees would also be included as domestic employment. If you pay cash wages of \$1,000 or more in a calendar quarter, you must establish an unemployment tax account.

**NOTE:** Service performed in or about a rooming house, boarding house, clubs (except local college clubs), hotels or commercial offices of establishment, are not to be considered domestic employment. Service performed as a private secretary, even though in the employer's home, is not considered Domestic Employment.

**Service performed for and about club rooms**, house of a local college club or local chapter of a college fraternity or sorority which she/he is employed is Domestic Employment, and an unemployment tax account must be established if \$1,000 are paid in a calendar quarter. **This does not include an alumni club or chapter.**

**Service performed in administration of a trust fund** or an estate for an individual is Domestic Employment, and an unemployment tax account **must** be established if wages paid are over \$1,000 per calendar quarter.

If you qualify for one quarter in a calendar year, you must report and pay taxes on **ALL** cash wages paid during the year.

The tax rate for all new employers is 2.5% of the first \$9,500 of each employees wages, per calendar year.

A separate quarterly report (UC-1 & UC-5) must be filed for each quarters wages.

For further details, see IC 22-4-8-2 (m), and IC 22-4-8-3 (d).
