

A&D/TBI – Waiver Services Supplemental – Adult Day Service

The waiver includes adult day services, attendant care, case management, homemaker, residential based habilitation, respite care, structured day program, supported employment, behavior management/behavior program and counseling, environmental modifications, healthcare coordination, occupational therapy, personal emergency response system, physical therapy, specialized medical equipment, and supplies, speech-language therapy and transportation. These are waiver services options that can be provided and will be services that people are receiving. Not everyone will be receiving the same services, however. Some will receive Physical Therapy or Transportation or Attendant Care, or some other service that reflects their needs.

The **Person Centered Compliance Tool** will be supplemented with the following tool depending on what waiver service the person is currently receiving. A review of the POC/CCB will determine what services the person has. The surveyor will determine by reviewing the POC/CCB and talking with the Case Manager the exact services the person has. By so doing, the surveyor will take the appropriate supplemental Provider Survey Tool to complete the survey. The following is an example of that supplemental Provider Survey Tool for a person who is receiving: **Adult Day Service**.

A&D/TBI – Waiver Services Supplemental – Adult Day Service

<p>Waiver Services: Adult Day Service</p> <p>Waiver Assurances</p> <p>Recommended Probes</p>	<p>Discovery Mechanisms</p>			
<p>Adult Day Service:</p> <p>Desired Outcome:</p> <p><i>Adult Day Service (ADS) is a community-based group program designed to meet the needs of adults with impairments through individual plans of care. They are structured, comprehensive, non-residential programs. They provide health, social, recreational, therapeutic activities, supervision, support services and personal care. Meals that constitute 1/3 of the daily Recommended Dietary Allowance are required. Services are provided in a congregate, protective setting.</i></p>	<p>Spending Time With People</p> <p>(Initially during the conversation with the person using the Personal Outcome Measures®, then throughout the survey process.)</p> <p>Examples only: specific situations may change observations.</p>	<p>Conversations With People</p> <p>Selected Examples only: specific situations may change conversations with people.</p>	<p>Review of Documents</p> <p>Examples only: specific situations may change documents needing review.</p>	<p>Discovery mechanisms are not meant to be inclusive. They are meant to be suggestions to gather information for the surveyor. Guidelines are intended to help the surveyor to make decisions about the presence or absence of the indicators. The Discovery mechanisms listed here in no way imply they are meant to be directives for completion, or a requirement to be answered in every instance.</p>
<p>Basic Adult Day Services (Level 1)</p>	<p>ADS I.A.1 The individual receives Level I services by qualified staff as documented in the Individual's Plan of Care/Coast Comparison Budget (POC/CCB)</p> <p>1.
