

ArcGIS Online

GIS day²⁰¹⁵

What is ArcGIS Online?

ArcGIS is an online tool from Esri that allows users to easily connect maps, applications and data with people so you can make smarter, faster decisions.

What is ArcGIS Online?

- Gives users in your organization the ability to create and share maps from any device, anywhere, anytime.
- Uses a secure website and does not require software to be installed on user machines
- Works with ArcGIS Desktop and Microsoft Office
- Provides the ability to publish maps internally or externally to the public

Why Use ArcGIS Online?

- Provides easy user interface for maps on all devices including mobile devices such as iPads, iPhone and Android devices
- Allows field staff to collect information in the field with pictures and notes related to a site or picture
- Can provide an operational overview for management
- Permissions and access to user and group specific map information can be controlled by Agency staff
- Meets State data and information security policies

Why Use ArcGIS Online?

- Less of a learning curve than ArcGIS Desktop
- Web Interface
- More than Google Maps.
- Just the right number of tools

Roles

General User – Create Maps, add Items, Share content, and Create groups.

Roles [?](#)

Role Name:

Description:

General Privileges

[-] Groups

- Create, update, and delete
- Join organizational groups
- Join external groups

[-] Content

- Create, update, and delete
- Publish hosted feature layers
- Publish hosted tile layers

[-] Sharing

- Share with groups
- Share with organization
- Share with public
- Make groups visible to organization
- Make groups visible to public

[-] Premium Content

- Geocoding
- Network Analysis
- Spatial Analysis
- GeoEnrichment
- Demographics
- Elevation Analysis

[-] Features

- Edit
- Edit with full control

Administrative Privileges

[-] Members

- View all
- Update
- Delete
- Invite
- Disable
- Change roles
- Manage licenses

[-] Groups

- View all
- Update
- Delete
- Reassign ownership
- Assign members

[-] Content

- View all
- Update
- Delete
- Reassign ownership

[-] ArcGIS Marketplace Subscriptions

- Request purchase
- Start trials

About Content Legend

Contents

- Community Right To Know
- Indiana Mask
- Streets

The map displays a geographic area covering parts of Illinois, Indiana, and Ohio. A dense cluster of black dots is overlaid on the map, primarily concentrated in the central and eastern parts of Indiana, around the Indianapolis area. Major highways like I-65, I-75, and I-70 are visible. City names such as Indianapolis, Springfield, Dayton, and Cincinnati are labeled. The map includes a scale bar (0, 15, 30 miles) and a north arrow.

Esri Maps for Office

The screenshot displays a Microsoft Excel spreadsheet with an ArcGIS map overlay. The spreadsheet contains a list of addresses and states, which are being visualized on a map. The map shows a geographic area with red markers indicating the locations of the addresses. The Excel window title is "Partners_20140422.xlsx - Microsoft Excel". The ArcGIS map window title is "Map 1".

ArcGIS Online for Power Point

How Do I Get Started with ArcGIS Online?

- Training classes available to IDEM staff
 - 3 Types of Classes
 - Introductory – Get onto ArcGIS online, create a map
 - Intermediate – create Apps, ArcGIS for Office.
 - Advanced – Program Area Data Stewards
- Other agencies – Please contact your GIS Coordinator
- LearnGIS (<http://learngis.maps.arcgis.com>)
- ArcGIS Book (<http://learn.arcgis.com/en/arcgis-book/>)

Questions?

- ArcGIS Online table in vendor area between Esri and 39° North
