Technical training for architects, developers, building inspectors and other interested parties on the federal Fair Housing Act design and construction requirements for multi-family properties. Effective March 1991, the federal Fair Housing Act required 7 elements for accessibility. Recent studies have found that despite the passage of time since the law's implementation, violations continue to occur. This training will also include guidance on "visitable" features for townhouses and single family homes. These types of homes are typically not covered by FHA. The intent of visitability is to promote inclusiveness and access for all. This is a training you will not want to miss.

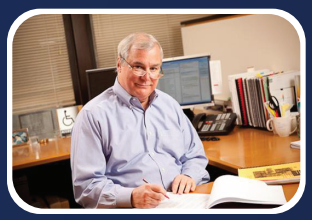
NO COST TO ATTEND. SPACE IS LIMITED. REGISTER AT: https://fairhousing102913.eventbrite.com/

FAIR HOUSING DESIGN & CONSTRUCTION TRAINING

October 29, 2013

9:00 AM-4:30 PM*

INDIANA GOVERNMENT CONFERENCE CENTER • 402 W. WASHINGTON ST. • CONFERENCE ROOM A • INDIANAPOLIS, IN 46204



John H. Catlin

Mr. Catlin is a partner in LCM Architects of Chicago and specializes in federal accessibility laws as well as state and local accessibility codes. He was the first practicing architect to serve as chair of the U.S. Architectural and Transportation Barriers Compliance Board, better known as the U.S. Access Board. His experience and expertise has led to his involvement in the development of accessibility compliance plans and consultation for many private and public entities.

Kimberly Paarlberg

Kimberly Paarlberg is a Senior Staff Architect in Technical Services with the International Code Council (ICC). Her experience with ICC includes work in the plan review and code development departments with responsibilities for code development, plan reviews, providing code interpretations, instructing technical seminars and authoring and reviewing instruction materials, code commentary and publication articles. Kimberly serves as code development secretary for the IBC Means of Egress/Accessibility and ICC Administration committees.

The work that provided the basis for this publication was supported by funding under a grant/cooperative agreement with the U.S. Department of Housing & Urban Development. The substance and findings of this work are dedicated to the public. The author and publisher are solely responsible for the accuracy of the statements and interpretations contained in the publication. Alternative formats for those with disabilities available upon request.

**Check-in begins at 8:30 am. Lunch is on your own. Eligible for credit from the American Institute of Architects.*
