FACT SHEET ABOUT TREES

- Trees are the longest living organisms on the planet and one of the earth's greatest natural resources.
- A mature leafy tree produces as much oxygen in a season as 10 people inhale in a year.
- Well-maintained trees and shrubs can increase property value by up to 14%.
- One tree can absorb as much carbon in a year as a car produces while driving 26,000 miles.
- The tallest tree in the country is a Coast Redwood growing in northern California's Redwood National Park. It is 369 feet tall and over 2000 years old!
