

Conditional Sales Agreement

WITNESSETH THIS AGREEMENT dated _____, 2012, by and between THE STATE OF INDIANA acting through the Indiana Department of Administration, ("Seller") and _____, ("Buyer").

In consideration of this Agreement, Seller and Buyer agree as follows:

1. Sale of Property. Seller agrees to sell to Buyer, and Buyer agrees to buy from Seller, the following property (collectively, "Property"):

1.1 Property. The property commonly known as _____ County, Indiana described on the attached Exhibit A ("Land") together with all buildings, improvements and fixtures constructed or located on the Land ("Buildings") and all easements of record and rights benefiting or appurtenant to the Land (collectively the "Property"), subject to all existing legal rights-of-way, easements, conditions and restrictions of record.

1.2 Personal Property. No personal property is being sold or conveyed as a part of this Purchase Agreement.

2. Purchase Price, Buyer's Premium, and Manner of Payment. The total purchase price ("Purchase Price") to be paid for the Property shall be _____ Dollars (\$_____). The Purchase Price shall be payable as follows:

2.1 In conjunction with execution of this Agreement (the "Execution Date"), Buyer shall submit _____ Dollars (\$_____) to Seller as earnest money ("Earnest Money"). In the event this Agreement is not accepted by Seller, the Earnest Money shall be promptly returned to Buyer. Upon acceptance of this Offer by Seller, such Earnest Money shall secure the Buyer's performance of this Agreement and in the event of a default by Buyer in the performance of its obligations herein specified, Seller shall have the right to terminate this Agreement and the Earnest Money shall be paid to Seller as liquidated damages as Seller's sole remedy at law or in equity; and

2.2 The balance of the Purchase Price, subject to adjustments as set forth herein, shall be payable in certified funds or by electronic transfer of funds on the "Closing Date" (as hereinafter defined).

2.3 In addition to the Purchase Price, Buyer shall, at Closing as hereinafter defined, pay Seller's representative a 10% Buyer's premium pursuant to the terms of a separate addendum to this Agreement.

3. Contingencies and Inspection Period. The obligation of the Seller is contingent upon approval of the transaction contemplated by this Agreement as required by **IC 4-13-2-14.1, IC 4-13-2-14.2 and IC 4-20.5-7.**

4. Closing. In the event that Seller has accepted this Agreement and the parties proceed to closing, the closing of the purchase and sale contemplated by this Agreement (the "Closing") shall occur within thirty (30) days following State approval as set forth above (the "Closing Date"), **such final closing is subject to and conditional upon approval by the Office of the Governor and the Indiana Attorney General**, unless extended by mutual agreement of the

parties. The Closing shall take place at a time, place, and on a date agreeable by Seller and Buyer. The Buyer will be responsible for title fees, escrow fees, and costs charged by the company with whom the earnest money is deposited as outlined in Section 5.1.

4.1 Seller's Closing Documents. On the Closing Date, Seller shall have executed and delivered or caused to be delivered to Buyer the following (collectively, "Seller's Closing Documents"), all in form and content reasonably satisfactory to Buyer:

4.1.1 Deed. A Quitclaim Deed conveying the Property to Buyer, **an exemplar of such Quitclaim Deed is attached hereto as Exhibit B.**

4.1.2 Documents. Copies of all contracts, permits and warranties affecting the Property that will survive the Closing, if any.

4.1.3 Sales Disclosure Form. An Indiana sales disclosure form.

4.1.4 Other Documents. All other documents reasonably determined by Buyer to be necessary to transfer title to the Property to Buyer free and clear except Permitted Exceptions to Title.

4.2 Buyer's Closing Documents. On the Closing Date, Buyer will execute and deliver to Seller the following (collectively, "Buyer's Closing Documents"):

4.2.1 Purchase Price. Funds representing the Purchase Price, by electronic transfer of immediately available funds.

4.2.2 Assumption of Contracts, Permits, Warranties and Miscellaneous Documents. An Assumption of Contracts, Permits and Warranties, if any, assuming Seller's obligations under such documents.

4.2.3 Sales Disclosure Form. An Indiana sales disclosure form.

4.2.4 Other Documents. All other documents reasonably determined by Seller or Title Company to be necessary to complete the transaction contemplated by this Agreement. Including a Vendor Information form required by the State of Indiana Auditor's Office, **an exemplar of such Vendor Information form is attached hereto as Exhibit C.**

5. Allocation of Costs. Seller and Buyer agree to the following allocation of costs regarding this Agreement:

5.1 Title Insurance and Closing Fee. Buyer shall be solely responsible for the payment of all premiums and fees associated with title insurance, including any and all closing fees or recording charges. Buyer shall be responsible for payment, at or before Closing, of search fees charged by the title company from whom Seller obtained a preliminary title review and commitment. Unless waived by the title company, said closing fees shall be payable by Buyer whether or not Buyer obtains a policy of title insurance.

5.2 Taxes and Assessments. The Property being conveyed is owned by the State of Indiana and is exempt from all real property taxes. The Seller shall assume no responsibility or liability for any real property taxes or other assessments from which it is statutorily exempt. Buyer shall be solely responsible for, and indemnify Seller against, any and all real property taxes assessed with respect to the Real Property on or after Closing.

5.3 Utilities. Seller shall either ensure that utility service to the Property is disconnected as of the Closing Date or shall cooperate with Buyer in having such utility services transferred to Seller's account. All contracts relating to operating the Property shall be canceled as of the Closing Date.

5.4 Attorney's Fees. Each of the parties will pay its own attorney's fees.

6. Evidence of Title. In the event that Buyer does not order and receive a commitment for title insurance, Seller shall, at its expense, within ten (10) days after written request from Buyer, furnish to Buyer a copy of the documents by which the State obtained or otherwise holds title or a letter from the State Land Office describing the documents by which the State obtained and otherwise holds title. Seller will cooperate with the Buyer or its title company in clarifying or resolving any perceived deficiencies or clouds in the title, but shall not be required to incur any expense beyond commitment of the time of the State Land Office. If such issues cannot be resolved to Buyer's satisfaction, Buyer may terminate this Agreement, and the Earnest Money, if any, shall be returned.

7. Maintenance of the Real Property Prior to Closing. During the period from the date of Seller's acceptance of this Agreement to the Closing Date, Seller shall maintain the Property **and improvements** in a reasonably prudent manner. Seller shall execute no contracts, leases or other agreements regarding the Property between the date hereof and the Date of Closing that are not terminable on or before the Closing Date, without the prior written consent of Buyer, which consent may be withheld by Buyer at its sole discretion.

8. Representations and Warranties by Seller. Seller represents and warrants to Buyer as follows:

- 8.1 Existence; Authority. Seller has the requisite power and authority to enter into and perform this Agreement and to execute and deliver Seller's Closing Documents; such documents have been duly authorized by all necessary action.
- 8.2 Contracts. Seller has made available to Buyer a correct and complete copy of any Contract and its amendments which will survive a closing hereunder, if any.
- 8.3 Operations. Seller has received no written notice of actual or threatened cancellation or suspension of any utility services for any portion of the Property. Seller has received no written notice of actual or threatened special assessments or reassessments of the Property.
- 8.4 Litigation. To Seller's knowledge, there is no litigation or proceeding pending or threatened against or relating to the Property, nor does Seller know of or have reasonable grounds to know of any basis for any such action or claim.
- 8.5 Physical Condition. Seller makes no representation or warranty concerning the physical condition of the Property and puts Buyer to the obligation to satisfy itself pursuant to the contingency contained in Section 3 above.

9. Casualty; Condemnation. If all or any part of the Property is materially damaged by fire, casualty, the elements or any other cause, Seller shall immediately give notice to Buyer, and Buyer shall have the right to terminate this Agreement and receive back all Earnest Money by giving notice within thirty (30) days after Seller's notice. If eminent domain proceedings are threatened or commenced against all or any part of the Property, Seller shall immediately give notice to Buyer, and Buyer shall have the right to terminate this Agreement and receive back all Earnest Money by giving notice within thirty (30) days after Seller's notice. Termination of this Agreement and return of all Earnest Money are Seller's sole remedies

10. Notices. Any notice required or permitted hereunder shall be given by personal delivery upon an authorized representative of a party hereto; or if mailed by United States certified mail, return receipt requested, postage prepaid; or if transmitted by facsimile copy followed by mailed notice; or if deposited cost paid with a nationally recognized, reputable overnight courier, properly addressed as follows:

If to Seller: Commissioner
Indiana Department of Administration
402 W. Washington St., W479
Indianapolis, IN 46204

With Copy to: Attorney General
Office of the Indiana Attorney General
302 W. Washington St.
Indianapolis, IN 46204

If to Buyer:

With a Copy to:

Notices shall be deemed effective on the date of receipt. Any party may change its address for the service of notice by giving notice of such change ten (10) days prior to the effective date of such change.

11. Miscellaneous. The paragraph headings or captions appearing in this Agreement are for convenience only, are not a part of this Agreement, and are not to be considered in interpreting this Agreement. This written Agreement constitutes the complete agreement between the parties and supersedes any prior oral or written agreements between the parties regarding the Property. There are no verbal agreements that change this Agreement, and no waiver of any of its terms will be effective unless in a writing executed by the parties. This Agreement binds and benefits the parties and their successors and assigns. This Agreement has been made under the laws of the State of Indiana, and any suit must be brought in an Indiana court of competent jurisdiction.

12. Remedies. If Buyer defaults, and if Buyer fails to cure such default within ten (10) days of the date of notice of such default from Seller, then Seller shall have the right to terminate this Agreement by giving written notice of termination to Buyer. In the event of termination Seller will receive the Earnest Money as liquidated damages, time being of the essence of this Agreement. The termination of this Agreement and retention of the Earnest Money will be the sole remedy available to Seller for such default by Buyer, and Buyer will not be liable for damages or specific performance. Buyer's sole remedy for any default by Seller shall be termination of this Agreement and return of the Earnest Money.

13. Buyer's Examination. Buyer is relying solely upon its own examination of the Property and inspections in determining its physical condition, character, and suitability for Buyer's intended use of the Property and is not relying upon any representation by Seller or any broker, except for those made by Seller directly to Buyer in writing in **Exhibit D, which is attached to this agreement.** Buyer agrees and acknowledges that it is accepting the Property "AS IS" subject to all faults of every kind and nature whatsoever, whether latent or patent, and whether now or

hereafter existing, and Buyer acknowledges that it has based its decision to purchase the Property solely upon information obtained independently by Buyer. Buyer shall sign a Hold Harmless Affidavit, **an exemplar of such Hold Harmless Affidavit is attached hereto as Exhibit E.** Buyer shall acquire the Property subject to all laws imposed upon the Property by any governmental or quasi-governmental authority having jurisdiction thereof. Buyer represents and warrants to Seller that Buyer has not relied, and will not rely, upon the representation or statement, or the failure to make any representation or statement, by Seller or Seller's agents, employees or by any person acting or purporting to act on the behalf of Seller with respect to the physical condition of the Property.

14. Compliance with Telephone Privacy. As required by IC 5-22-3-7:

(1) the Buyer and any principals of the Buyer certify that (A) the Buyer, except for de minimis and nonsystematic violations, has not violated the terms of (i) IC 24-4.7 [Telephone Solicitation Of Consumers], (ii) IC 24-5-12 [Telephone Solicitations] , or (iii) IC 24-5-14 [Regulation of Automatic Dialing Machines] in the previous three hundred sixty-five (365) days, even if IC 24-4.7 is preempted by federal law; and (B) the Buyer will not violate the terms of IC 24-4.7 for the duration of the Contract, even if IC 24-4.7 is preempted by federal law.

(2) The Buyer and any principals of the Buyer certify that an affiliate or principal of the Buyer and any agent acting on behalf of the Buyer or on behalf of an affiliate or principal of the Buyer (A) except for de minimis and nonsystematic violations, has not violated the terms of IC 24-4.7 in the previous three hundred sixty-five (365) days, even if IC 24-4.7 is preempted by federal law; and (B) will not violate the terms of IC 24-4.7 for the duration of the Contract, even if IC 24-4.7 is preempted by federal law.

15. Withdrawal of Offer. This Agreement shall be deemed to be withdrawn, unless accepted by Seller, after one-hundred-fifty (150) days of delivery to Seller. In the event of a withdrawal under this section, Buyer shall be entitled the return of the Earnest Money.

16. Additional terms.

17. Non-Collusion and Acceptance. The undersigned attests, subject to the penalties for perjury, that he/she is the Buyer, or that he/she is the properly authorized representative, agent, member or officer of the Buyer, that he/she has not, nor has any other member, employee, representative, agent or officer of the Buyer, directly or indirectly, to the best of the undersigned's knowledge, entered into or offered to enter into any combination, collusion or agreement to receive or pay, and that he/she has not received or paid any sum of money or other consideration for the execution of this Property Purchase Agreement other than that which appears upon the face of this Agreement.

In Witness Whereof, Buyer and the Seller have, through their duly authorized representatives, entered into this Property Purchase Agreement. The parties, having read and understood the foregoing terms, do by their respective signatures dated below hereby agree to the terms thereof.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

US BROWNFIELDS: A Listing of Brownfields Sites

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

USGS TOPOGRAPHIC MAP

Target Property Map: 41086-E8 WESTVILLE, IN
Most Recent Revision: 1977

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

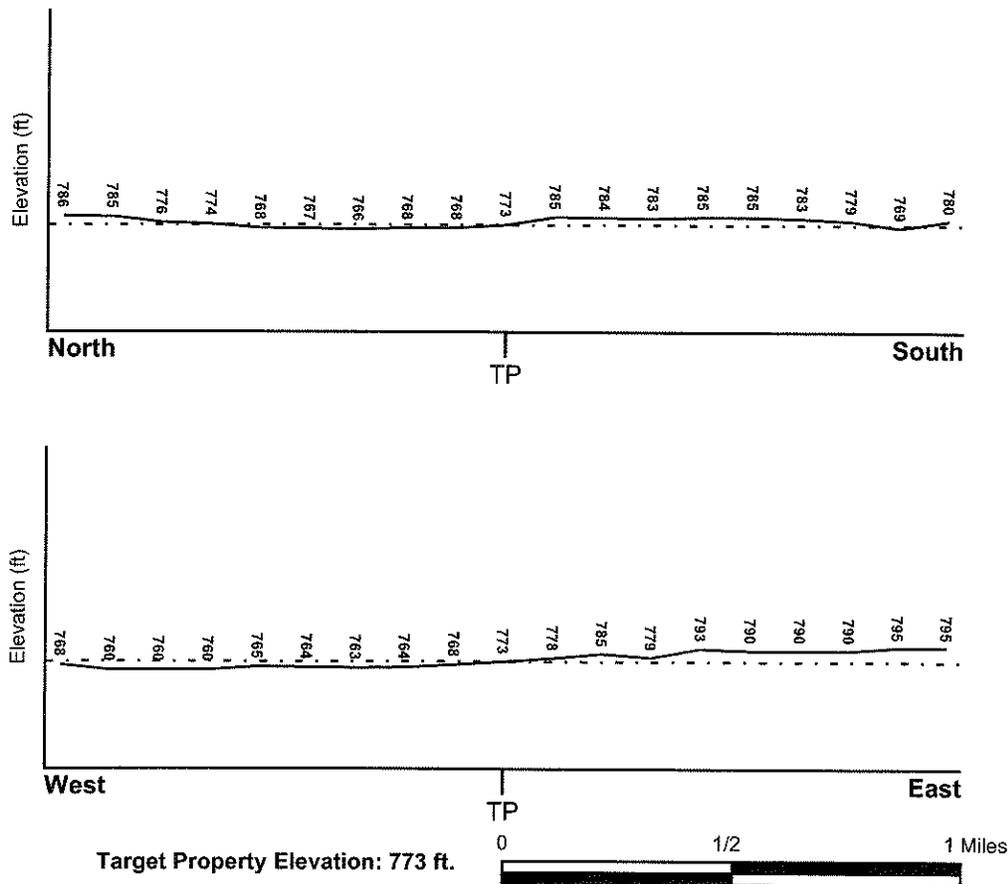

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Tracy

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.
